Area Housing Panel Projects are available to improve your area

Here are a few examples:

Area Housing Panel – South West

Location – Jasmine Close

The panel and tenants living in Jasmine Close decided that they wanted to have new washing lines to make the area tidier and open it up again. With having rotary lines, it allows the lines to be collapsed when they are not in use making the area look neater.

AFTER -

Area Housing Panel – East

Location – St Matthews

The panel and tenants decided to spend some of their budget on closing up the balconies of the block of flats to make it warmer to walk in, use as a deterrent for Anti –Social Behaviour and allow tenants to feel safer in their own homes. The works also included a deep clean of the stairwells.

Area Housing Panel – North West

Location – Kerry Avenue

A Tenant Representative brought to the panels attention this small seating area was in needing of some tender loving care. She knew that there was a tree in the middle of the area that had been chopped down but the panel agreed for the 3 benches to be replaced, the area steam cleaned and a new tree to be planted in the autumn.

BEFORE -

AFTER (No tree at the moment)
