6th November 2012

Dear Mr Wessels

Pollution Prevention and Control Act 1999
The Environmental Permitting (England and Wales) Regulations 2010
Permit ref: EP47/3

Further to the inspection of the above installation on 24th October 2012, I can confirm that the operation was found to be satisfactory and complied with the conditions of the permit and had a LOW risk rating.

As discussed during the visit, Defra has recently produced a revised process guidance note for the blending, packing, loading, unloading and use of cement [PG3/01(12)]. Please find attached a Variation Notice, accompanied by the varied permit ref: EP47/3 which takes account of changes made in the guidance.

If you have any queries or would like to discuss the varied permit please do not hesitate to contact me.

Yours sincerely

Louise Burns
Environmental Health Officer
