- (Red line) Approx. 1.1km - 13min
- (Yellow line) Approx. 0.7km - 8min

lane to Bucklesham Road
opposite St. Augustine's Church

lane to Bucklesham Road **S**

Bixley Heath SSSI is a small heathland site packed with wildlife features! With woodland, wetland, heathland and more, this site is a favourite with wildlife watchers and photographers alike.

These designated walks aim to show you the best features of the nature reserve but also preventing disturbance to the rare and fragile species assemblages in the locally important heathland and wetland habitats. Always keep to the designated paths to avoid disturbing wildlife. During the bird nesting season (February - September) please keep your dog on a lead at all times to avoid disturbing ground nesting birds amongst the heather and reeds.

During your walk keep your eyes peeled for reed warblers and water rails in the reedbed. If you are visiting in Summer look out for the flurry of butterflies feasting on the heather areas.
