Part B Application form

Application for a permit for a dry cleaners

**Local Authority Pollution Prevention and Control
Pollution Prevention and Control Act, 1999
Environmental Permitting (England and Wales) Regulations 2007**

When to use this form

Use this form if you are applying for a permit to a Local Authority to operate a dry cleaning installation as defined in Section 7 of Schedule 1 to the Environmental Permitting Regulations.

The appropriate fee must be enclosed with the application to enable it to be processed further. When complete, send the form and the fee and any additional information to:

*Ipswich Borough Council
Grafton House
15-17 Russell Road
Ipswich
IP1 2DE*

If you need help and advice

We have made the application form as straightforward as possible, but please get in touch with us at the local authority address given above if you need any advice on how to set out the information we need.

LAPPC application form: to be completed by the operator

For Local Authority use		
Application reference	Officer reference	Date received

Address

NITRE HOUSE, 2 BOND STREET **Efficientax LTD**
IPSWICH 2 Bond Street,
Ipswich, IP4 1JE

Postcode IP4 1JETelephone 01473 219475

Fax number email address info@efficientax.com

B. About the installation

B1.2. Please attach a plan of the premises showing the location of:

- (a) the premises
- (b) where the dry cleaning machine(s) will be installed
- (c) where the dry cleaning solvents will be stored
- (d) where the dry cleaning residue will be stored
- (e) any drains within the installation and in the immediate area of the installation which may be affected as a result of any potential Volatile Organic Compound (VOC) release from the dry cleaning operations

B1.3. Please supply a description of the location and methods of storage of:

- (a) dry cleaning solvents
(b) dry cleaning residue

(see the attached plan)

B1.4. Make, model name/number, serial number, load capacity, date of installation and type of dry cleaning solvent used.

BOWE

Make	Model	Serial number	Load capacity	Date installed	Dry cleaning solvent
BOWE	COMET CPB XP	?	16 kg	?	PERK

BOWE <
B1.5. Provide details, including a schedule, of checking and maintenance procedures for each machine. This should include the machine manufacturers' recommended operating procedures, checking and maintenance requirements and any other additional procedures undertaken by the operator. (This should be submitted in a form of a list of the activities carried out and their frequencies. For additional guidance see Section 3, paragraph 3.14 of PG6/46(04)).

It will be done according to manufacturer guideline, every week, ^{checking and cleaning.}

B1.6. Provide details of any other activities carried out within the dry cleaning installation which involve the use of organic solvents in particular spot clean solutions, water-proofing solutions and any other solvents or solvent borne preparations.

B1.7. Provide details on the training and relevant qualifications regarding operating and maintaining the dry cleaning machine in accordance with this guidance.

Bow Sales Rep is coming to give training in end Aug.

B1.8. Specify how the product will be weighed and recorded weekly and annually.

ask Bowe

B1.9. Provide details how the mass or volume of solvent used will be determined and recorded weekly and annually (due to the low use spot cleaning solvents they need only to be determined annually).

B2.0. **Risk Phrase Solvents** At the time of writing and in the future it is believed unlikely that these materials will be used within the dry cleaning industry. (Details of the risk phrases of the materials used can be found on the original suppliers packaging and in the Materials Safety Data Sheet (MSDS) for the product).

Are any substances or preparations which because of their VOC content are required carry one or more of the following risk phrases used within the installation:

- R45 - May cause cancer

- R46 - May cause heritable genetic damage
- R49 - May cause cancer by inhalation
- R60 - May impair fertility
- R49 - May cause harm to the unborn child.

Yes	No

If **Yes**, provide full details of how and why these risk phrase materials are used and how the requirements of the EU Solvent Emissions Directive on substitution, control and limiting of emissions of risk phrase materials will be met.

C1. Fees and Charges

The enclosed charging scheme leaflet gives details of how to calculate the application fee. Your application cannot be processed unless the application fee is correct and enclosed.

C1.1. Please state the amount enclosed as an application fee for this installation.

£ 148.00

Cheques should be made payable to:

We will confirm receipt of this fee when we write to you acknowledging your application.

C1.2. Please give any company purchase order number or other reference you wish to be used in relation to this fee.

C2. Annual charges

If we grant you a permit, you will be required to pay an annual subsistence charge. If you don't pay, your permit can be revoked and you will not be able to operate your installation.

C2.1. Please provide details of the address you wish invoices to be sent to and details of someone we may contact about fees and charges.

Mr Mehmet Cicek, 785 Woodbridge Road,
Ipswich IP4 4NN

Postcode IP4 4NN Telephone 07572 666472

C3. Commercial confidentiality

C3.1. Is there any information in the application that you wish to justify being kept from the public register on the grounds of commercial or industrial confidentiality?

If **Yes**, please provide full justification, considering the definition of commercial confidentiality within the EP Regulations (See the General Guidance Manual).

C4. Data Protection

The information you give will be used by the Local Authority to process your application. It will be placed on the relevant public register and used to monitor compliance with the permit conditions. We may also use and or disclose any of the information you give us in order to:

- consult with the public, public bodies and other organisations,
- carry out statistical analysis, research and development on environmental issues,
- provide public register information to enquirers,
- make sure you keep to the conditions of your permit and deal with any matters relating to your permit
- investigate possible breaches of environmental law and take any resulting action,
- prevent breaches of environmental law,
- offer you documents or services relating to environmental matters,
- respond to requests for information under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004 (if the Data Protection Act allows)
- assess customer service satisfaction and improve our service.

We may pass on the information to agents/ representatives who we ask to do any of these things on our behalf.

It is an offence under regulation 38 of the EP Regulations, for the purpose of obtaining a permit (for yourself or anyone else) to:

- make a false statement which you know to be false or misleading in a material particular,
- recklessly make a statement which is false or misleading in a material particular.

If you make a false statement

- we may prosecute you, and
- if you are convicted, you are liable to a fine or imprisonment (or both).

C5 Declaration: previous offences (delete whichever is inapplicable)

I/We certify

EITHER

No offences have been committed in the previous five years which are relevant to my/our competence to operate this installation in accordance with the EP Regulations.

OR

The following offences have been committed in the previous five years which may be relevant to my/our competence to operating this installation in accordance with the Regulations:

..... N/A

✶ Signature M. Mehmet

Name MR MEHMET CICEK

Position DIRECTOR

✶ Date 12/7/16

6 Declaration

C6.1 Signature of current operator(s)*

I/We certify that the information in this application is correct. I/We apply for a permit in respect of the particulars described in this application (including supporting documentation) I/We have supplied.

Signature

Name

Position

Date

** Where more than one person is defined as the operator, all should sign. Where a company or other body corporate – an authorised person should sign and provide evidence of authority from the board of the company or body corporate.*

Ground Floor

~~W6664~~ Z85
Woodbridge Road Ipswich
IP4 4NN

B.1.3:

a) Dry cleaning solvents: Solvents will be kept in a storage room.

b) Residue: will be kept separately outside the building, in the garden.

SECTION 7: SOLVENT MANAGEMENT PLAN

7.1 Solvent Management Plan - What is it?

The solvent management plan basically works out where all of the solvent you use eventually ends up. The reasons for making a solvent management plan are:

- to find out if you are complying with the emission limit value.
- to demonstrate to the accredited inspection contractor and the Local Authority that you are/are not in compliance with the emission limit value.
- to help you identify future emission reduction options (and help reduce your costs).

The solvent management plan uses what is called a 'mass balance', basically identifying where solvent goes into a process and where it comes out. It can be done for an individual dry cleaning machine or for the entire dry cleaning premises.

7.2 Solvent Management Plan Terms for Dry Cleaning

The following drawing and subsequent table list the solvents Directive terms used in the mass balance for dry cleaning installations.
