Dear Mr Paris

Further to the inspection of the above installation on 15th November 2013, I can confirm that the operation was found to be satisfactory and complied with the conditions of the permit and had a LOW risk rating.

As discussed during the visit, Defra has recently produced a revised process guidance note for the blending, packing, loading, unloading and use of cement [PG3/01(12)]. Please find attached a Variation Notice, accompanied by the varied permit ref: EP36/4/lb which takes account of changes made in the guidance.

If you have any queries or would like to discuss the varied permit please do not hesitate to contact me.

Yours sincerely
