

visit made. met with mr kilic who runs the shop. Discussed if any issues have come up since last visit. Mr Kilic explained that he had noted a solvent smell in shop which was attributed to a leak.he called in Trevor Austin 07771768540 who said pipe needed repair. Mr Kilic said that he had the whole pipe replaced.

He hasn't sent any waste yet but uses Lynx DC supplies of Pegasus Works, Essex. He anticipates that a despatch will take place soon. Noted that he had empty and full gallons of solvent behind the machine. All were lidded without visible signs of leak. Suggested that he placed them on a tray or bund to contain any spillage.
