Core Strategy and Policies
Development Plan Document Review Final Draft
Chapter 2 - The Planning System

26230

Respondent: Ipswich & East Suffolk Clinical Commissioning Group & West Suffolk CCG

Summary:
It is also important we continue to be consulted in relation to emerging Neighbourhood Development Plans in order to work with local communities to deliver and maintain sustainable healthcare.

Change suggested by respondent:

Chapter 4 - The Duty to Co-Operate

26222

**Respondent:** Ipswich & East Suffolk Clinical Commissioning Group & West Suffolk CCG

**Summary:**
It is important to remember that improved or newly created infrastructure, alone, will not fully mitigate the impact of development growth. Resource and revenue implications provide a very significant risk to the delivery of primary care services and we should continue to work together to identify ways in which sustainable health care services can be delivered and how development can contribute to healthy communities and the training and recruitment of health care professionals.

26262

**Respondent:** East Suffolk and North Essex NHS Foundation Trust (ESNEFT)

**Summary:**
ESNEFT is undergoing a Sustainability Transformation Plan (STP) to determine how acute hospital healthcare provision will be provided. Acute hospital trusts are required to provide early delivery of additional inpatient bed spaces, which for Ipswich will support growth and resilience across the local health economy. Significant investment in healthcare facilities and services is/ will be taking place, to meet requirements of existing and future catchment population by planned new housing growth included in the Local Plan. A new Emergency Department and Urgent Treatment Centre, is due to be implemented 2020/21. to deliver the STP a planning policy basis is needed.

Respondent: Save Our Country Spaces

Summary:
Comments prepared in liaison with NFPG. SOCS have consistently baulked at the unrealistic/ unjustified housing and job targets. We have challenged population projections which have driven this agenda. Good, at last, that the legacy of growth, expansion, over ambition and wishful thinking of the early 2000’s finally are being challenged. However, there is a way to go to achieve a sound plan. The Duty to Cooperate is hard for Ipswich to achieve when partner organisations are reluctant to take ownership/ responsibility for the adverse impacts they are imposing on the County Town. Ipswich has little power/ control for resolution.

Respondent: Save Our Country Spaces

Summary:
Purpose of review is to update the Core Strategy until 2036 taking into account new legislation and NPPF Updates and to align the Local Plan with neighbours. However, EastSuffolk is tasked with making modifications to their plan. SOCS very critical of the ‘Statement of Common Ground’ issued last year and submitted a response to the emerging Mid Suffolk Local Plan Consultation in addition to Suffolk Coastal District Council. SOCS attended and gave oral evidence to the EastSuffolk Plan Inquiry. Feel the Duty to Cooperate has not been effectively achieved within this Draft; nor has it by the partner local authorities.

**Respondent:** Gladman Developments  
**Summary:**  
Whilst collaboration between the IPSA authorities has occurred it has not resulted in effective and concrete outcomes to ensure the housing needs of the HMA will be delivered in full. The Local Plan does not form a strategy that will provide the necessary certainty that is needed to ensure that the minimum housing requirement across the Ipswich Housing Market Area can be achieved in full over the plan period. From the outset of the plan making process, the local authorities within the ISPA have been aware of the issue of unmet needs arising from Ipswich over the plan period.  

**Change suggested by respondent:**  
There are practical and sustainable options available to be considered in neighbouring authorities that can accommodate housing needs over the plan period in a sustainable manner, which can support wider infrastructure improvements, including at key junctions on the A14 which is an important cross boundary issue.  

- **Legally compliant:** No  
- **Sound:** No  
- **Comply with duty:** No  

**Attachments:**

26381  
**Respondent:** Persimmon Homes  
**Agent:** Persimmon Homes  
**Summary:**  
Ipswich's OAN have risen. Over the last two years house sales have fallen. There is functional need for IBC, ESDC and B&MSDC to ensure development needs are met. There seems to be little recognition of the potential of this area, or detail provided on how ESDC and IBC have cooperated. Ipswich's administrative boundary justifies significant efforts to work with neighbouring authorities as a priority on cross boundary issues. This absence of detail weighs against how positively prepared the Final Draft Local has been and the effectiveness of its approach over the plan period. Persimmon endorse the statements made by the HBF.  

**Change suggested by respondent:**  
Not specified  

- **Legally compliant:** No  
- **Sound:** No

**Attachments:**
26447

**Respondent:** Pigeon Investment Management Ltd

**Summary:**
Therefore Pigeon retain the view that, whilst there appears to be much mention of Ipswich Borough Council working with neighbouring authorities, this does not appear to materialise into any real contribution to delivering housing outside of the Ipswich Borough Council area during the plan period. Despite the comments made by Pigeon previously as part of the Regulation 18 Consultation, the Council do not appear to have given these any significant weight.

**Change suggested by respondent:**

**Attachments:** None
Through the process of development of this Plan and those covered by adjacent planning authorities within Ipswich Strategic Planning Area (ISPA), Highways England has worked closely with Suffolk County Council on the development of the evidence base. The modelling work shows that accumulatively growth in ISPA is predicted to pose significant strain on the transport network in and around Ipswich. Additional highway capacity will not on its own address these issues and it is noted that the local authorities across the ISPA agree that robust steps must be taken to prioritise healthy and sustainable travel. Highways England supports this position.

**Change suggested by respondent:**

N/A

- **Legally** Not specified

- **Sound** No

**Attachments:**
Summary:
It would appear that the Council has sought to co-operate with the neighbouring authorities and statutory bodies on the key strategic and cross boundary issues. This is welcomed, and we consider that this is important given the tightly drawn administrative boundary, which constrains the practical options for meeting needs for development within the Borough.

Paragraph 5.4 (deprivation issues) - Health care providers in areas of deprivation are under more pressure than those in areas where deprivation is lower. Due to the extra strain put on health providers in areas of high deprivation, morale and recruitment is lower than areas where the level of deprivation is less. Tackling areas of the highest levels of deprivation must be seen as a priority going forward as the resources required to provide health care in these areas is currently unsustainable.

Paragraph 5.25 (travel demands from growth) - It is good to see that the benefits of health and wellbeing are being considered in initiatives not intrinsically linked to health. Creating a safe and sustainable link between new developments and areas of commerce and community is essential, be it via a well-lit walking path, cycle path or green corridors. The benefits to resident's wellbeing should not be overlooked as linking people that would otherwise be isolated can have a major benefit to mental health.

**Summary:**

Paragraph 5.26 (Health and Wellbeing) - We aim to provide health care facilities in a timely manner that is in line with the growth. The physical building of a health and/or social facility or improving one is relatively acquirable in most circumstances but there is currently a national shortage of NHS staff in both primary care and secondary care causing capacity issues. LPAs can help aid recruitment by providing local communities that will attract NHS staff to them, by producing key worker housing in and around NHS campuses and facilities, encouraging commerce, designing and creating a vibrant and attractive community.

**Summary:**

Biodiversity Section currently states – “The need to halt biodiversity net loss.” Suggest this is amended to state - "Prevent loss of biodiversity and implement measures for biodiversity net gain.” The government is mandating that, through the new Environment Bill, all development (with a few exceptions) will be required to secure gains in biodiversity. It is therefore not sufficient to state that there will be a halt in net loss.

**Change suggested by respondent:**

Amend biodiversity section to "Prevent loss of biodiversity and implement measures for biodiversity net gain."

Respondent: Save Our Country Spaces

Summary:
5.25; Improving air quality in the increasing number of Ipswich AQMAs (now five) needs to be added as a key challenge. IBC should be “delivering high levels of modal shift” rather than just “guiding as many trips as possible to sustainable modes”. Meeting the Climate Emergency needs to be added as a key challenge.

5.26 - table 2 - There are inconsistent references throughout the document (6.16, IBC FRA webpage, 8.45, 8.46, 8.225, DM4 PRFA). The situation regarding flood risk assessment within the CS is confusing and makes flood risk impossible to understand for the general public. Requires further clarification.

Respondent: Silverton Aggregates Ltd

Summary:
Welcomed that IBC are using regeneration opportunities to address deprivation, make places safer and create opportunities for all. Site should therefore be considered as an appropriate location for residential development, which would accord with National and Local Policy in this regard. Ipswich-specific issues being the limited availability of land, and large areas of protected land. Strongly recommended that the Council should be seeking to allocate additional residential sites to meet this unmet housing need within the Borough. Land north of Burrell Road is a suitable, available and deliverable site and should be allocated for residential development.

Change suggested by respondent:
- Include Land north of Burrell Road as a residential site allocation.

Object

**Respondent:** Ipswich & East Suffolk Clinical Commissioning Group & West Suffolk CCG

**Summary:**
IBC healthcare provision equals 13 GP’s, 2 branch surgeries, 36 pharmacists, 26 dental surgeries, 20 opticians, 1 Acute hospital and 6 clinics. The CCG, Local Authorities and local stakeholders has started addressing Primary Care capacity issues. These projects will deliver additional capacity to meet previously identified growth. Upon review some existing health infrastructure will require further investment/ improvement to meet the needs of growth in this LP. Growth would have an impact on healthcare provision which, if unmitigated, may not be sustainable. Provision needed to address development impact on health infrastructure and ensure timely cost-effective delivery of necessary infrastructure improvements.

**Change suggested by respondent:**
Implement recommendations set out in letter dated 18/02/2020.

Respondent: Save Our Country Spaces

Summary:
Issues raised need to be fully assessed/ addressed for LP to be 'sound'. LP is unsound and doesn't comply with NPPF. "Climate Change" agenda insufficiently addressed. Proposals contrary to; NPPF 10. Environmental, social and economic effects of the plan(s) are inadequately/ inaccurately assessed against HRA and SA. “Serious adverse effects” not properly identified, as required under NPPF. This means any planning application almost impossible to determine, rendering the major IGS applications problematic and renders stakeholder responses to applications a problem. NPPF-11 not considered. Employment/ homes growth, including IGS, undermined by ongoing failure to properly assess cumulative requirement for wastewater infrastructure.

Respondent: Save Our Country Spaces

Summary:
Growth, must be measured against the potential for serious adverse effects and serious adverse impacts, including Quality of Life and Public Health. Potential to secure a "sustainable future" for existing local population, future populations/ generations is not demonstrated. Specific issues to be addressed:
1. Drainage
2. Flooding (Westerfield)
3. Sewage capacity
4. Traffic impact
5. Air pollution and health impact
6. Pressures on local facilities
7. Road widening/ removal of vegetation/ verges
8. Loss of high grade agricultural land
9. Loss of trees/ habitats
10. Country park delivery stalling
11. No need for dwellings given lack of new local jobs.

Summary:

Objective 1: inadequately demonstrated. Objective 2; the 4% and 5% affordable housing negotiated on IGS doesn’t match with the 31% quoted. Evidence of recent job losses in town undermines credibility of job target. Objective 3; Lack of justification for HDL. Objective 5; Concerns about railway noise/ vibration from intensification of line and traffic from humpback bridge. Current rail noise causes residents complaints and audible for a distance of about 1/4-1/2 a mile at night causing significant sleep-disturbance especially in summer. 5 point rail plan agreed 2018 and no assessment of diesel pollution. Adopted indicator of air quality exceedances should be reinstated.

Change suggested by respondent:

- Adopted indicator of air quality exceedances should be reinstated for objective 5.

Respondent: Kesgrave Covenant Ltd
Agent: Kesgrave Covenant Ltd

Summary:
Whilst strongly support residential allocation for land at Humber Doucy Lane, seeking relatively minor amendments to detailed wording which is considered neither justified nor effective and therefore not sound. This will ensure no unnecessary delays to delivery of development. As currently written, the Plan identifies the land for "future" development and states that it will be "appropriately phased" with Garden Suburb and associated infrastructure. Amend to provide greater clarity regarding required infrastructure. Plan should not make generic references to “future” development or refer to requirement for phasing without appropriate evidence/details. Wording of paragraph 6.17 should be amended to reflect this.

Change suggested by respondent:
Paragraph 6.17 should be amended to read:
"A cross-border allocation for development (within Ipswich Borough and Suffolk Coastal Local Plan area) for housing delivery, is also identified in north-east Ipswich at the northern end of Humber Doucy Lane and Tuddenham Road..."

---

The effectiveness of the CS to deliver both employment and homes growth including the IGS could be seriously undermined by the ongoing failure to properly assess the cumulative requirement of Ipswich for wastewater infrastructure over the CS period and plan for its provision. This remains a major failing of the CS making it unsound. We note that improvements to sewage infrastructure has been included in ISPA2 and it also needs to be included in relation to the IGS. The potential impact of Sizewell C on the IGS and the CS has not been assessed in any form of sensitivity analysis.

Change suggested by respondent: 

Improvements to sewage infrastructure should be included in relation to the IGS. Impact of Sizewell C on the IGS and the CS need to be assessed.

<td><strong>Summary:</strong> Development in itself is unlikely to achieve any reduction in carbon emissions. Objective should be re-written so that permitted development will not add to carbon emissions. To be sound, reference should be made to air quality/pollution and the need for development not to increase poor air quality in existing and potentially new Air Quality Management Areas. Throughout Plan, references made to significant modal shift to achieve sustainability. However, although this has existed for some years, there is no evidence of modal shift. Continued reference to such shift could be seen as disingenuous. Objective needs to provide initiatives/disincentives to developers.</td>

Any development in Humber Doucy Lane must not take place until the Garden Suburb is substantially completed. “ Appropriately phased” is too open-ended. To be sound, and to enable completion of the Garden Suburb, no development should occur before a trigger point of 3,200 completed homes.

Change suggested by respondent:

Support the objective for housing set out in Paragraph 6.8 (2). Also agree with Point 4. that development will be directed to the central Ipswich IP-One area. Recognise that, in terms of a sequential test there is no realistic alternative to locating some development in Flood Zone 3. Land north of Burrell Road is located in proximity to the Waterfront and its facilities and services. Its proposed regeneration would contribute to the regeneration of Burrell Road, and the wider IP-One Area, whilst also contributing to the attractiveness of the Waterfront.

Change suggested by respondent:
Add land north of Burrell Road as a residential site allocation.

**Summary:**
Under paragraph 35 of the National Planning Policy Framework ('The Framework') we consider that this Plan is unsound as some aspects are not effective, or consistent with national policy. We have identified in detail below where we find the Plan unsound and what measures are needed to make the Plan sound. In particular we have recommended the inclusion of specific policy references for heritage assets and identified mitigation within Policies SP2 (Land Allocated for Housing), SP4 (Opportunity Sites), SP5 (Land Allocated for Employment Use), SP11 (The Waterfront), SP12 (Education Quarter), and SP13 (Portman Quarter).

Respondent: Save Our Country Spaces

Summary:
Strongly disagree with the proposed change to replace "green rim" with "green trail". The existing green rim is an asset and should be protected by adding it to Policy CS4, especially as Ipswich Borough Council have previously massively reduced its size and are now attempting to reclassify it and hence destroy it. Change in name is misleading and is actually to bring forward land at Humber Doucy Lane for development. Non-compliant with DM8. See appendix 1 for history of the green rim/ corridors. No mention of the green rim/trail being used in the Ipswich Cycling Strategy.

Respondent: Kesgrave Covenant Ltd
Agent: Kesgrave Covenant Ltd

Summary:
Whilst strongly support allocation of land at Humber Doucy Lane, seeking relatively minor amendments to wording which is considered neither justified nor effective and therefore not sound. This will ensure no unnecessary delays to delivery of development. As currently written, the Plan identifies the land for "future" development and states that it will be "appropriately phased" with Garden Suburb and associated infrastructure. Amend to provide greater clarity regarding required infrastructure. Plan should not make generic references to "future" development or refer to requirement for phasing without appropriate evidence/details. Wording of paragraph 7.2 should be amended to reflect this.

Change suggested by respondent:
Paragraph 7.2 should be amended to read:
"...(iv) The cross-border allocation for development proposed at the northern end of Humber Doucy Lane through policy ISPA4:..."

Respondent: Ipswich School
Agent: Mr Matt Clarke

Summary:
Object to identification of land west of Tuddenham Road, north of Ipswich Millennium Cemetery as "Land Allocated for Sport Use" on the basis that it is not required for this purpose. The release of the Ipswich School land at Notcutts Field, as part of the allocated Ipswich Garden Suburb is not currently considered viable and is therefore uncertain, whilst in any event the school owns other land that would provide suitable alternative land for replacement playing fields within the vicinity and has already invested significantly into new and improved facilities at its Rushmere St Andrew Sports Centre. It is proposed that the site is allocated for residential development (21.81ha, with capacity for 500 dwellings). Please see accompanying letter for further details.

Change suggested by respondent:
- Allocate site for residential development (21.81ha, with capacity for 500 dwellings) and not sports use.
  - Legally: Not specified
  - Sound: No
  - Comply with duty: Not specified
26645

Respondent: Silverton Aggregates Ltd

Summary:
The location of the IP-One area in Diagram 3 is supported, however it is considered that the extent of the Waterfront and the proposed location for major housing development could be extended westwards, especially in light of proposed allocations IP031a and IP031b for residential development. In doing so, this would incorporate the site to the north of Burrell Road, which is a suitable, available and deliverable site which is capable of accommodating residential development to meet the unmet need within the Borough. The site should therefore be allocated for residential development.

Change suggested by respondent:

Extend the Waterfront Boundary.

Discrepancy in the housing need figures agreed across the HMA. Understood the IPSA agreed SOCG 2020, and a copy of this is available on the IBC website signed January 2020 (see table 1). The East Suffolk Final Draft Local Plan relies on the standard methodology based on the 2016 household projections, whereas the IBC Local Plan Review focusses on the 2014 household projections, thus reducing their housing need figure. Without further clarification with regards to the discrepancies between these projections, it is unclear whether the Council’s emerging Local Plan meets the tests of soundness, as outlined in NPPF 35.

**Policy ISPA2 Strategic Infrastructure Priorities**

**Summary:**
A14 improvements required to support proposed growth have been identified - consistent with findings of modelling and study work. Plan notes that longer term funding would comprise growth funds, developer funding and monies identified from a future Roads Investment Strategy (RIS). RIS2 hasn’t been published so it isn’t possible to confirm this, or whether funding would be available from a future RIS. Without robust measures identified by Suffolk County Council, it isn’t certain that delivery of the latter stages of the plan can be achieved - vital that a robust manage and monitor approach is maintained throughout the plan period.

**Change suggested by respondent:**

**Respondent:** Home Builders Federation Ltd (HBF)
**Agent:** Home Builders Federation Ltd (HBF)

**Summary:**
It would appear from the Council’s evidence that they have co-operated effectively with neighbouring authorities to plan for housing needs across the ISPA. Growth expectations are set out in ISPA1 and we agree that the minimum number of homes to be delivered in the areas is circa 35,000 between 2018-2036. However, we cannot comment on whether this has translated into effective joint working regarding the cross-border infrastructure and sites issues set out in ISPA2 and ISPA3. It will be important that the Council can show that the cross-boundary issues concerning the deliverability of those sites in ISPA4 which will meet a considerable portion of the ISPA’s housing needs will be addressed by the Council and the relevant agencies.

**Agent:** East Suffolk Council

**Summary:**
Suggested that policy for development at northern end of Humber Doucy Lane references maintenance of separation between Ipswich and surrounding settlements, for consistency with DM11. Noted that ISPA4 infers that SANGs will be required on both sides of Borough boundary. For clarity and to enable provision for SANGs to be considered through project level Habitats Regulations Assessment, and to be reflective of plan level HRA, policy could provide appropriate level of flexibility by not specifying that SANGs be located on both sides of boundary. Suitable Accessible Natural Greenspaces should be changed to Suitable Alternative Natural Greenspaces to reflect term SANGs.

**Change suggested by respondent:**
Policy should reference maintenance of separation between Ipswich and surrounding settlements. Policy could provide appropriate level of flexibility by not specifying that SANG be located on both sides of boundary. Suitable Accessible Natural Greenspaces should be changed to Suitable Alternative Natural Greenspaces.

**Respondent:** Save Our Country Spaces

**Summary:**
Traffic will increase traffic at junctions that are already over-capacity without any additional infrastructure. Breach of CS16 regarding protection/ enhancement of green corridors and the Green Rim (regardless of it being designated as countryside). Breach of policies DM8, DM10 and DM11 as no net biodiversity gains or green infrastructure though development. Acts as a rural buffer. Regardless, should be no development of this land until completion of IGS. Needs to be clarified in the CS. SA needs to fully assess implications on building on site and whether delivering more homes in town centre instead of retail is more sustainable option.

**Change suggested by respondent:**
Should be no development of this land until completion of IGS. SA needs to fully assess implications on building on site and whether delivering more homes in town centre instead of retail is more sustainable option.

- **Legally compliant:** Not specified  
- **Sound:** No

**Attachments:**
Respondent: Kesgrave Covenant Ltd
Agent: Kesgrave Covenant Ltd

Summary:
Policy comments on location of green infrastructure - KCL has additional land in vicinity so may be possible to locate outside of allocated site. Limiting green infrastructure to within allocation overly restrictive, therefore not effective or sound. Policy outlines affordable housing requirements - whilst provision supported in principle, Council must ensure viability. Plan identifies 15% requirement with exception of land at Humber Doucy Lane and IGS where at least 30%/31% is required. Whole Plan Viability Study calculations don't include Section 106 and CIL - query whether full infrastructure costs considered. Suggest further flexibility should be applied. Recommend policy wording change.

Change suggested by respondent:
Policy ISPA4 should be amended to read:

"Ipswich Borough Council will work with neighboring authorities to master plan and deliver appropriate residential development and associated infrastructure on identified sites within the Borough but adjacent to the boundary, where cross boundary work is needed to bring forward development in a coordinated and comprehensive manner. In order to meet housing needs within the Borough boundary as far as possible, the Council identifies cross-border allocation for development of 23.62ha of land within Ipswich Borough in 4 parcels forming ISPA4.1 for housing growth and associated infrastructure improvements at the northern end of HUmber Doucy Lane adjacent to Tuddenham Road. The allocation is shown on the accompanying site sheet for this policy. It will require land and infrastructure works and green infrastructure (including Suitable Accessible Natural Greenspace) on both sides of the Borough boundary in order to come forward, however this could include land outside the allocated site.....Development will include at least 30% affordable housing, subject to viability testing at the planning application stage...."
**Summary:**

Paragraph 8.28 refers to transport mitigation measures required for the development of the site at Humber Doucy Lane being "challenging". This is not considered to be the case. Re-iterate earlier submissions in relation to accessibility of the site:

- Good public transport accessibility;
- Good road access;
- Good accessibility to services and facilities;
- Town centre and hospital easily accessed by public transport;
- Development of site promotes sustainable transport in accordance with NPPF;
- Transport Modelling Report concludes housing growth can be accommodated;
- Proposals will not influence northern bypass route.

Current reference to "challenging" transport mitigation measures not justified. Recommend amendment to paragraph 8.28.

**Change suggested by respondent:**

Paragraph 8.28 should be amended to read:

"The site allocation at the northern end of Humber Doucy Lane is located at the edge of Ipswich approximately 3.5km from the town centre. Sustainable transport connections will be key to providing linkage to employment and other opportunities. In addition, it is acknowledged that transport mitigation measures are required for the development of the site and it is essential that significant modal shift is delivered through strong travel plans and other sustainable measures"

Respondent: Kesgrave Covenant Ltd
   Agent: Kesgrave Covenant Ltd

Summary:
Plan identifies requirement for sites to provide 15% affordable housing, with the exception of Humber Doucy Lane and IGS where 30/31% required respectively. Calculations for Humber Doucy Lane from assessment of affordable housing provision in The Whole Plan Viability Study, don't include section 106/CIL - query whether full infrastructure costs considered. After testing, first IGS neighbourhoods have been agreed with 4/5% provision instead. Therefore, suggest further flexibility applied to this policy. Whilst support provision of affordable housing, more detailed viability testing may be required to ensure site is viable with regard to all infrastructure costs. Recommend amendment to paragraph 8.29.

Change suggested by respondent:
Paragraph 8.29 should be amended to read:
"The Council will outline expected infrastructure provision of both green infrastructure and built infrastructure required as part of the joint agreed master-planning process to the cross-border Humber Doucy Lane sites. the Whole Plan Viability Assessment of the Local Plan identifies that this area of land falls within a high value zone and indicates that approximately 30% affordable housing could be achieved on a greenfield development, however this will be subject to further testing at the planning application stage. The level of affordable housing also broadly aligns with the Suffolk Coastal Local Plan affordable housing requirement of 33%"

Respondent: Pigeon Investment Management Ltd

Summary:
Policy ISPA4 – Cross Boundary Working to Deliver Sites
3.1 Pigeon support the Council’s inclusion of a policy that relates to the delivery of sites outside of the Borough. However, this policy remains almost the same as its version in the previous document, only including a little more detail. Furthermore, this policy relates solely to site ISPA4.1. It does not therefore provide any general policy support or guidance for delivering Ipswich Borough Council’s housing need for 8,010 homes (Policy CS7), outside of the authority area, particularly given the stepped housing trajectory with less homes delivered at the start of the plan period.
3.2 The Site Sheet for ISPA4.1 sets out that the development would need to be ‘delivered in coordination with the delivery of the Ipswich Garden Suburb to ensure that there is sufficient infrastructure capacity to meet demand’. The Ipswich Garden is assessed with further commentary within this representation, and in line with the conclusions of this, it is considered that reliance on the Ipswich Garden Suburb puts site ISPA4.1 at risk of delay.

26579

Respondent: Suffolk County Council

Summary:
The County Council welcomes the commitment to coordinate development across boundaries. This area is outside district or local centres buffers defined on Plan 1. NPPF p.92 states that planning policies should ensure an integrated approach to considering the location of housing, economic uses and community facilities and services. P.103 states that the planning system should limit the need to travel, through an appropriate mix of uses. To enable access to services and make future communities in the area defined by ISPA4 sustainable, the policy should state the masterplanning of the site should also consider the inclusion of a local centre.

Change suggested by respondent:

In order to enable access to services and make future communities in the area defined by ISPA4 sustainable, the policy should state the masterplanning of the site should also consider the inclusion of a local centre. This will also help to keep the plan more internally consistent e.g. with paragraph 6.17.

Respondent: Gladman Developments

Summary:
The policy should go further in its approach to ensuring the delivery of sustainable development is consistent with a localised approach to assessing development proposals in line with the ethos of achieving the delivery of sustainable development as required by the NPPF2019 which is key to assessing planning proposals and should be reflected in the policy wording linked to the vision and objectives of the Plan. Refer to the Sustainable Development Statement in the draft Durham Local Plan currently subject to examination. It is a local approach to how development proposals will be considered against the NPPF presumption.

Change suggested by respondent:
Gladman refer to the Sustainable Development Statement contained in the draft Durham Local Plan currently subject to examination. This is an effective example of a local approach of how development proposals will be considered against the presumption outlined in national policy. It is recommended that similar criteria that are relevant to Ipswich be included in the policy wording to demonstrate how a localised approach will be taken through the development management process.

**Respondent:** Gladman Developments

**Summary:**
The Plan fails to provide a positive and effective mechanism to ensure the delivery of the HMA's housing needs in full. It also relies on the delivery of housing from sites in high risk flood zones. IBC need to identify significantly more sites, which are realistically deliverable and viable. IBC must look outside the Borough’s boundary to enable the town’s housing need to be met and identify land that is more suitable for residential development. Gladman are promoting land east of Ipswich, within East Suffolk District, for the development of ‘Orwell Green Garden Village’ and land for a new settlement in Babergh District in a strategic location between Hadleigh and Ipswich.

**Change suggested by respondent:**
Ipswich Borough Council need to identify significantly more sites, which are realistically deliverable and viable to support the currently identified housing supply. To ensure the Borough’s housing need can be met, sites, including realistically deliverable strategic sites, outside of the Borough’s boundary, should be identified. Gladman are promoting land to the east of Ipswich, within East Suffolk District, for the development of ‘Orwell Green Garden Village’ and a potential area of search for a new Garden Village in a strategic location in Babergh between Hadleigh and Ipswich.

- **Legally compliant:** No

Policy comments on the location of green infrastructure. It should be noted that KCL has additional land in the vicinity of the Humber Doucy Lane site allocation so it may be possible to locate these uses outside the site. Therefore, seek flexibility to policy wording to ensure the most appropriate option can be pursued. Limiting green infrastructure to the application site is overly restrictive at this stage and does not enable options to be fully explored. This approach is not effective and therefore does not comply with the tests of soundness. Recommend amendment to policy wording.

Policy CS2 should be amended to read:
"b. Allocating sites for development at the northern end of Humber Doucy Lane for housing and associated infrastructure and working with East Suffolk Council to master plan development and ensure a comprehensive approach to its planning and delivery (see policy ISPA4)..."
Respondent: Babergh District Council & Mid Suffolk District Council
Agent: Babergh District Council & Mid Suffolk District Council

Summary:
Before an assumption is made that later in the plan period, housing land supply opportunities in Ipswich Borough will be limited, a comprehensive regeneration and asset strategy needs to be undertaken to exhaust all other options. Through measures contained in the Local Transport Plan and the Suffolk County Council Transport Mitigation Strategy, it should be possible to rationalise / make better use of the amount of car parking required in Ipswich. We would have expected the parking strategy to have been produced before the assertion was made in paragraph 8.58 of limited housing land supply opportunities.

Concerned that 'higher density homes' is a synonym for tall buildings/ flats. Appears to be confirmed in final paragraph of Policy. Inference that 'high density' could 'compromise' the historic character of Ipswich, by way of tall buildings affecting the setting of these assets, impacting on their significance. Consider this section on densities needs to be clarified, and 'high', 'medium' and 'low' densities defined. Should also make clear that good design should not only respect the historic character of an area, but respond to it. High density does not need to take the form of flats, see 'Increasing Residential Density publication (2018).

Section on densities needs to be clarified, and 'high', 'medium' and 'low' densities defined. Should also make clear that good design should not only respect the historic character of an area, but respond to it.
Policy CS3 IP-One Area Action Plan

26469

**Respondent:** Associated British Ports  
**Agent:** Associated British Ports

**Summary:**
Support regeneration objectives for IP-One area. Important elements of the Port within or adjacent to area. Development should have regard to existing port uses/activities to ensure they are protected. Concerned to ensure right and ability to use land and infrastructure for port purposes is retained and Port’s ‘significant (economic) role’ and ability to expand is protected. Request that recognition is made to the Port and other important existing employment/activities within/adjoining IP-One area which the Council wishes to safeguard and support. Development should be sensitive to existing uses and avoid potential impacts which may prejudice the continued operation/expansion of these uses.

**Change suggested by respondent:**
Request the addition of a new criterion into any new policy based on Policy CS3:
"New development should be sensitive to existing uses (including those at the Port of Ipswich) and avoid potential impacts which may prejudice the continued operation and, where appropriate, expansion of these uses."

**Attachments:**

---

**26657**

**Respondent:** Historic England

**Summary:**
Extremely concerned about the following key aspects:
1. The lack of clarity regarding the status of the IP-One Area Action Plan;
2. The lack of clear delineation of the opportunity areas; and
3. The absence of robust policies for these which in our view renders this aspect of the Plan not effective, and therefore unsound.

See detailed commentary for further explanation of these concerns. Ipswich has a high number of historic assets in the IP-One area and appropriate management of the historic environment will therefore be a significant consideration in the design and deliverability of new development.

**Change suggested by respondent:**
If the IP-One Area Action Plan has been completed then Policy CS3 and supporting text need to clearly state this. Opportunity areas need to be clearly defined and labelled on the policies map, so that it is clear which policy and supporting text relates to which area, and the extent of the land in question. Recommended one policy for each opportunity area which specifically sets out the main criteria and parameters for that land. Robust site specific policies will help to articulate the vision for each opportunity area, setting out the means to improve connectivity, legibility, and ones experience of historic places, and help to ensure the key design and heritage principles are employed consistently and to a high quality. Review the wording for policies SP2, SP4, SP5, SP11, SP12, and SP13 identifying which heritage assets (or their settings) would be affected by the proposed development. Elevate the Development Options plans (i.e. those illustrating the development options and design guidelines) from chapter 6 into the policies.

**Attachments:**
**Respondent:** Historic England  

**Summary:**  
The way the IP-one area action plan is referred to suggests that this work has yet to be completed, and that in due course a new Area Action Plan will be prepared, clarifying the opportunity area boundaries, and setting out detailed policy criteria. However, this is not clear and is confusing and misleading. Concern is that the Plan should be readable and useable for everyone. If the IP-One Area Action Plan has been completed and is incorporated, then Policy and supporting text need to clearly state this. Notwithstanding this, it is our contention that the Council has not followed CS3.

**Change suggested by respondent:**  
Policy requires clarification as to the status of the IP-One Area Action Plan.

### 26298

**Respondent:** Constable Homes Ltd  

**Summary:**  
Presume shortfall of 796 units is a result of the housing supply period being reduced to 2019-2036 (Table 4). Please clarify. Ipswich only delivered 46% of the minimum target. Previous year, the measurement for Ipswich Borough Council was 66%. This indicates that housing delivery has worsened and measures needed to recover the position. Also very close to the 45% threshold in 2019 NPPF paragraph 215b. Threshold will increase to 75% next year which reinforces the urgency of addressing the significant shortfall in housing delivery. Council should be proactively identifying opportunities to accelerate delivery to overcome the significant shortfall.

**Change suggested by respondent:**  
Clarify shortfall of 796 units.

- **Legally compliant:** Not specified  
- **Sound:** No  
- **Comply with duty:** Not specified  

**Attachments:**

### 26300

**Respondent:** Constable Homes Ltd  

**Summary:**  
Paragraph 73 (NPPF) states 20% buffer to the five year supply should be applied. This adds to significant challenge of meeting 75% of need. Assumed date is February 2021. No buffer applied to Policy CS7. To be effective, a buffer equivalent to one year’s supply (445 dwellings) should be added to five year housing land supply. Council is in a critical position of acute under supply and failing to quantify the need increases likelihood that unmet need won’t be addressed. An immediate review of the Plan will be necessary if the Council is only targeting a capped need figure.

**Change suggested by respondent:**  
In order for the Plan to be effective, a buffer equivalent to one year’s supply (445 dwellings) units should be added to the five year housing land supply.

- **Legally compliant:** Not specified  
- **Sound:** No  
- **Comply with duty:** Not specified  

**Attachments:**
**Respondent:** Home Builders Federation Ltd (HBF)  
**Agent:** Home Builders Federation Ltd (HBF)

**Summary:**

**Housing supply -**  
The HBF welcome the decision to include a 10% contingency within the Council's housing supply.  
It is not evident which sites form the basis of supply within the first five years of the plan.  
It will be necessary for the Council to provide a detailed site by site assessment of delivery across the plan period.  
This is particularly important with regard to the five year supply given the amended definition of deliverable within the 2019 NPPF.  
Until such evidence is provided the HBF reserve the right to comment on this issue.

**Change suggested by respondent:**

In order to make the plan sound the Council will need to provide evidence as to the delivery rates for specific allocations and other sources of housing supply within the local plan to ensure these can be scrutinised.

- **Legally compliant:** Not specified
- **Sound:** No
- **Comply with duty:** Not specified

**Attachments:**

---

**Respondent:** Home Builders Federation Ltd (HBF)  
**Agent:** Home Builders Federation Ltd (HBF)

**Summary:**

**Stepped requirement -** Policy is not sound, the stepped trajectory has not been justified. Agree with the proposed requirement for the plan period, however do not agree with the steps proposed. In too many cases the step is required on the basis of the strategy chosen by the Council. The approach is not sufficiently challenging and is more likely to lead to the whole plan under delivering. We would suggest:

- 2018/19 to 2019/20 - 300
- 2020/21 to 2023/24 - 375
- 2024/25 to 2035/36 - 493

This would ensure the Council can maintain a five year supply on adoption.

**Change suggested by respondent:**

In order to make the plan sound the Council will need to set a more challenging stepped trajectory that is more closely linked to expected supply.

- **Legally compliant:** Not specified
- **Sound:** No
- **Comply with duty:** Not specified

**Attachments:**
Summary:
Housing requirement - Policy not sound the housing requirement has not been justified. Paragraph 2a-024 of the PPG states that an increase in the total housing figures may be considered where it could help deliver affordable housing. The Council recognise in paragraph 8.151 affordable housing need is 239 dpa, around 48% of their requirement and as such they will not meet all of their need for affordable housing. Consideration should have been given with the other authorities in the ISPA whether more sites could be allocated elsewhere in the ISPA to meet the affordable housing needs of Ipswich.

Change suggested by respondent:
In order to make the plan sound the Council will need to justify why they have not considered a higher housing requirement that better meets their jobs growth assessments and affordable housing needs. Whilst we recognise that Ipswich is constrained the Council should have looked to secure additional provision within neighbouring areas.

Legally: Not specified
Sound: No
Comply with: Not specified

Response:

**Respondent:** Gladman Developments

**Summary:**

The Council should plan for a higher level of housing need. The need figure generated by the standard method should only be considered as the minimum starting point. A stepped housing requirement is only appropriate where there is a significant change in the level of housing requirement between plans. Historic delivery does not suggest that the Borough's housing need will be delivered as they are relying on historic sites with known issues as a continuation of the existing spatial strategy. The historic completions data suggests that the stepped housing requirement will continue to delay meeting identified housing needs. Continued reliance on IP-One to deliver homes in Ipswich is unfounded and unrealistic; further distribution across the HMA is required. The Council's housing requirement will fail to meet economic and affordable housing needs. It is not evident which sites within the Council's housing land supply will come forward within the next five years. The rate of delivery at Ipswich Garden Suburb is over estimated. The Council's assumptions made in respect of the housing trajectory risk the deliverability of the Local Plan.

**Change suggested by respondent:**

The Council could plan for a higher level of housing need than the standard method suggests. The stepped trajectory should be deleted as it delays housing delivery. Neither the SHLAA nor the Housing Topic Paper provide the necessary detail on the housing land supply as required by the NPPF. Refer to Lichfields 2016 report and Babergh Mid Suffolk 2019 for evidence of delivery rates at larger sites.

Response:

**Respondent:** Persimmon Homes

**Agent:** Persimmon Homes

**Summary:**

A prescriptive approach in the interpretation of the policy would limit opportunities to respond to market forces, and possibly result in more situations such as Griffin Wharf (site reference IP200) where the viability of development is being questioned. Persimmon also endorse the statements made by the HBF.

**Change suggested by respondent:**

- **Legally compliant:** No
- **Sound:** Yes
- **Comply with duty:** No

**Attachments:**
Policy CS7 sets out a policy with the minimum housing number that Ipswich Borough Council proposes to deliver in its area. The Housing Land Supply only amounts to a total of 7,214 dwellings, including an allowance for windfall development. Therefore, the Council already acknowledge that they have an unmet housing need of 1,597 dwellings over the Plan period, taking into account the 10% contingency that is allowed for in the final paragraph of the policy. Steps should therefore be taken with the ISPAB to now identify locations outside the boundary of Ipswich Borough Council where this unmet need can be accommodated.

Summary:
Comments below relate only to section cutting through the dwelling (Broadacres). NPPF paragraphs 58 and 69 and Section 18 of Crime and Disorder Act 1998 quoted. In the SPD, planned enhancement to northern end of Fonnereau Way wouldn't meet these acts/policies. The existing way at Broadacres doesn't meet these acts and promotes anti-social behaviour. Suffolk Constabulary letter to IBC (August 2016) quoted. SPD an opportunity to phase out Broadacres route and eradicate threat of crime, vandalism and anti-social behaviour by keeping route within country park.

Change suggested by respondent:
The route through Broadacres should be phased out through the enhancements to the northern end of Fonnereau Way. The route should be confined to the country park.

**Respondent:** Mr Paul Gilbert  
**Petition:** 2 petitioners

**Summary:**
There is a need for a safer pedestrian and cycle track other than Broad Acres Farm entrance at northern end of Fonnereau Way. Council has failed to assess the needs as the current footpath access is unsuitable for a cycle track. We had to negotiate 2 moving cars and a horse being moved on this access. There is no value enjoyment or country feel about walking through someone's home. We were told recently that a new pedestrian way and cycle track would be opening on Lower Road, avoiding the farm, using country park. This is a much safer solution.

**Change suggested by respondent:**
Plan must be altered to show the new safer route though the country park.

**Respondent:** Sport England

**Summary:**
Sport England are broadly supportive of this policy, but have concerns regarding the reference to 'dual use playing fields'. It is considered that the policy requirement for outdoor sport should not include school playing fields, as these are not always made available for public use, and over use can affect their quality.

The requirement for replacement playing fields for Ipswich School must be in addition to the policy requirements for community outdoor sport provision.

Respondent: Constable Homes Ltd

Summary:
Client’s land is area N3(b) (Figure 2). Reiterate concerns that the Council continues to number the phases in a way that implies they should be delivered in numerical order. SPD shows development can come forward in a self-contained manner. A safe and effective access from Tuddenham Road can be achieved. Surprised that when the Council interprets its own policy that this development would be precluded rather than positively facilitated. Suggest that the policy wording be amended to outline how each parcel could come forward individually to be sufficiently flexible and facilitate timely delivery of much needed residential accommodation.

Change suggested by respondent:
Policy wording be amended to outline how each parcel could come forward individually, whilst still being in general accordance with the Council’s growth strategy and the requirement for balanced growth across the strategic allocation.

Respondent: Pigeon Investment Management Ltd

Summary:
There is an adopted SPD for this site, and within this it states that ‘the success of the development of the Garden Suburb will depend to a large extent on the continued partnership working of the landowners, IBC and other key stakeholders to secure delivery’. This site is therefore reliant on multiple landowners coming forward and Pigeon would therefore argue that this complication will significantly delay the delivery of the development during the plan period. This concern should be afforded significant weight by the Council given that the Garden Suburb accounts for around half of the supply of housing.

Duty:

Attachments:
Summary:
The approach is not effective given the level of affordable housing needs within Ipswich will not be met over the plan period. The Council needs to address this situation if it is to meet the housing market areas full housing needs. NPPF p60 is clear that in addition to the local housing need figure, any needs that cannot be met within neighbouring areas should also be taken into account in establishing the amount of housing to be planned for. The Council must allocate additional housing land to make a meaningful contribution to housing land supply and boost affordable housing delivery.

Change suggested by respondent:
This issue can be addressed through the allocation of sites within the vicinity of Ipswich within neighbouring districts such as the Orwell Green Garden Village.

Object

Respondent: Bloor Homes

Summary:
The plan allocates a total of 1,647 affordable dwellings (assuming 30% IGS and ISPA4 and 15% on all other sites including windfall). In all likelihood this is overly optimistic given that most windfall sites are likely to be small and fall below the threshold set in Policy CS12. Based on the 239 dwellings per year in the SHMA, this would result in 38% of the affordable need. This is insufficient. Contrary to NPPF 20 and PPG. The Site can come forward to provide market and affordable housing to assist with meeting the need, working with East Suffolk.

Change suggested by respondent:
Allocate the Site at Humber Doucy Lane to help address the affordable housing shortage.

**Respondent:** Northern Fringe Protection Group

**Summary:**
The Council in its paper is misleading Councillors as the concept of corridors and the green rim was for the corridors to provide access on foot or by cycle to the countryside surrounding Ipswich. That countryside then became known as the green rim and the intention was for the green rim to be protected from development. We note that in subsequent CSs the green rim has been considerably reduced in size, which demonstrates the Council’s lack of commitment to protecting open space and improving biodiversity in its own Plans. The change in definition is effectively non-compliant with policy DM8.

26559

**Respondent:** Cardinal Lofts (Mill) Ltd

**Agent:** Cardinal Lofts (Mill) Ltd

**Summary:**
Whilst generally supportive of the objectives of this policy, in order for the Plan to be sound, there should be an explicit recognition that, on high density sites within the IP-One Area, and particularly along the Waterfront, it won’t be possible to make full provision for private, and public, open space, in accordance with the Council’s standards. Open space is a ‘land hungry’ use and, if developments have to meet full standards, densities will be greatly reduced. Could threaten achievement of the Council’s spatial strategy and result in new development not making the best/most effective use of previously developed sites.

**Change suggested by respondent:**
- Include reference within policy that “on high density sites within the IP-One Area, and particularly along the Waterfront, it won’t be possible to make full provision for private, and public, open space, in accordance with the Council’s standards.”

**Attachments:**
Problem exists within Ipswich over sports grounds - illustrated by grant of planning permission for residential development at Ipswich Sports Club in Henley Road. Hockey pitch deemed inadequate and relocated elsewhere enabling potential development to proceed. Although there could be shown at that particular time that the pitch wasn’t needed, this facility was lost in perpetuity. Needs and fashions for sport facilities change over time, but, once land is lost, there is no flexibility. Assessing Green Infrastructure, Sport and Recreation need should take account of future residents and changing desires/habits of the residents over time. The Draft doesn't do this.

Policy CS17 Delivering Infrastructure

S106 is very important when providing health infrastructure and up until recent this has just been accessible to primary care providers through the CCG. NHS England has now provided instructions that all health providers should be looking to request mitigation through S106 or CIL as part of the planning application response process. As part of this process, developments over 250 dwellings will automatically go to the Alliance partners in health for them to make representation and request mitigation. The inclusion of GP surgeries and health centres as key strategic infrastructure is to be commended as this will allow the CCG to strategically plan ahead with the understanding that providing the business case is sustainable it will more likely get approval.
Respondent: East Suffolk and North Essex NHS Foundation Trust (ESNEFT)

Summary:
It is noted that health and emergency services are again referred to, although there is no specific reference to acute hospital facilities. Therefore point 3 and bullet point 7 of the policy wording require amendment.

Change suggested by respondent:
Point 3 on page 98 – amend to read;
3. health including acute care and emergency services.

Bullet point 7 on page 98 – amend to read;
▪ community facilities including GP surgeries, health centres and key acute inpatient and outpatient facilities;

Respondent: East Suffolk Council
Agent: East Suffolk Council

Summary:
Categories detailed in CS17 broadly in line with infrastructure commitments in SCLP2.2 of the Suffolk Coastal Final Draft Local Plan. Requirement for cross-boundary cooperation identified in Statement of Common Ground. Noted that CS17 refers to infrastructure to be secured from new development including early years provision. However, not clear in Table 8A of the plan whether early years provision in north east Ipswich is identified as an infrastructure priority, consistent with the Statement of Common Ground. Council has included criterion within SCLP12.24 for provision of early years setting on site, if needed. Recommend that this is replicated in ISPA4.

Change suggested by respondent:
Include criterion in Policy ISPA4 for the provision of an early years setting on site, if needed.

While DfE supports Policy CS17, we request a minor amendment either to the policy or its supporting text, to clarify that developer contributions may be secured retrospectively, when it has been necessary to forward fund infrastructure projects in advance of anticipated housing growth. An example of this would be the local authority’s expansion of a secondary school to ensure that places are available in time to support development coming forward. This minor amendment would help to demonstrate that the plan is positively prepared and deliverable over its period.

Change suggested by respondent:
We request a minor amendment either to the policy or its supporting text, to clarify that developer contributions may be secured retrospectively, when it has been necessary to forward fund infrastructure projects in advance of anticipated housing growth.

Policy CS19 Provision of Health Services

26215

**Respondent:** Ipswich & East Suffolk Clinical Commissioning Group & West Suffolk CCG

**Summary:**
Welcome support of primary care infrastructure and will always provide facilities that meets the needs of patients but policy of building near the town centre, district or local centre will be difficult. Surgeries have catchment areas and these might conflict with district or local centres. Primary Care Networks (PCNs) are being introduced to provide a variety of services through surgeries working together and this could influence the location of any new health facility. The OPE platform is available to make sure that all public buildings are fully utilised. Feasibility studies are being produced to find an estate strategy for Ipswich.

**Change suggested by respondent:**

**Attachments:**
Summary:
No objection to masterplan approach which reflects ESNEFT’s intentions, but inclusion of the word ‘safeguards’ is unnecessarily restrictive and inflexible. ESNEFT requires further flexibility in how it plans and develops the Hospital site which may include non-health care provision, should land become surplus to health care requirements. To allow for further flexibility, the inclusion of ‘other ancillary uses’ should be added to the policy. The Policy would not; enable sufficient flexibility to enable ESNEFT to realise its development requirements, reflect legal or procedural requirements, or reflect the most appropriate strategy for the site, contrary to NPPF paragraph 35. Amendments needed.

Change suggested by respondent:
Recommended the policy wording is amended as follows:
"The Council supports the development of healthcare related facilities at the Heath Road Hospital Campus as identified on the policies map. Related uses may include:
■ Further inpatient and outpatient accommodation and facilities
■ Staff accommodation;
■ Residential care home;
■ Intermediate facilities;
■ Education and teaching centre;
■ Therapies centre; and
■ Other ancillary uses.

Proposals for new and improved healthcare, ancillary facilities and other compatible development at Heath Road Hospital Campus will be supported providing they form part of the Hospital Trust’s Estate Strategy for the provision of healthcare facilities, consistent with an overall site wide masterplan prepared by the Trust and associated Transport Strategy including suitable travel plan measures and parking provision."

Legally compliant: No
Comply with duty: Not specified
Attachments:
Respondent: East Suffolk and North Essex NHS Foundation Trust (ESNEFT)

Summary:
It is also requested that the last sentence of the supporting text within Paragraph 8.229 is deleted as it covers healthcare matters that go beyond the scope of the Local Planning Authority’s remit. Additional sentences are requested to demonstrate examples of the other ancillary uses referred to above. The supporting text (paragraph 8.230) also needs to be amended to link any parking issues to those directly associated with proposed hospital activity related to specific developments, rather than any parking issues that may be occurring in the area generally.

Change suggested by respondent:
Requested revision to paragraph 8.229:
The Heath Road Hospital is a strategic health facility serving Ipswich and the surrounding area. It is important that any rationalisation of uses there takes place in the context of a planned strategy for healthcare provision which itself takes account of the future growth of Ipswich and the Ipswich Strategic Planning Area. The policy allows for a range of healthcare and other compatible uses, including staff support services to assist with recruitment and retention. Additional ancillary uses may also include shared facilities to deliver a mutual benefit to other public sector organisations aligned with the one public estate agenda.

Requested revision to paragraph 8.230:
It is also essential that the travel implications of specific hospital related developments are fully considered and measures are put in place to encourage the use of sustainable modes where practicable by staff, out-patients, and visitors. In particular, measures should tackle parking issues in surrounding residential areas associated with proposed Hospital activity and the Hospital should put in place monitoring to ensure that any measures are proving to be effective.

Respondent: Associated British Ports
Agent: Associated British Ports

Summary:
Welcome intention to make case for highway improvements including Wet Dock Crossing. Support recognition (para 8.243) that provision of Wet Dock Crossing is not a pre-requisite of access improvements to enable development. Whilst supportive of redevelopment of Island Site, delivery is dependent on commercial viability. Until satisfactory scheme agreed, reserve right to use site as operational port area and to restrict access. Disagree with reference to requirement of road bridge to enable development at Island Site (para 8.247) - request removal. Access required will depend on development - reduced density of approximately 150 units, may not require additional vehicular access.

Change suggested by respondent:
- Not appropriate to be so prescriptive about the need for a new road bridge and we would request the removal of reference to it:
  "at a minimum, a road bridge from the west bank to the Island Site...will be required to enable any significant development on the Island".
  - Legally compliant: No

Respondent: Suffolk County Council

Summary:
Reference to the Transport Mitigation Strategy for the ISPA is welcome and supported, as is the focus on sustainable transport measures. SCC Transport Model highlights that growth in Ipswich and surrounding districts may cause severe impacts on the highway network within and around Ipswich, which cannot be addressed through improvements to the highway alone. The County Council considers the appropriate strategy to be maximising sustainable transport in order to achieve a significant proportion of modal shift in both the new and existing population. The Suffolk County Council Transport Mitigation Strategy needs to be included in the Local Plan evidence base.

Change suggested by respondent:
- The Suffolk County Council Transport Mitigation Strategy needs to be included in the Local Plan evidence base.
  - Legally: Not specified

Evidence base provides indicative proposals for upgrading junctions along A14 and potentially cost-effective measures for resolving link and junction capacity problems arising from growth. Potential measures include proposals to re-establish Bury Road Park and Ride and provision of a new site in Nacton Road. Consider these are potentially feasible options. However, measures will not address underlining A14 capacity issues. Further measures may be required e.g. variable mandatory speed limits, and substantial improvements at Junction 55 (Copdock). Funding of measures is an issue. At this stage there is no certainty of the availability of future Highways England capital funding programme funding.

**Change suggested by respondent:**

- **Legally compliant:** Not specified

**Attachments:**
Respondent: Councillor Oliver Holmes

Summary:
Transport is an area of weakness. Upper Orwell Crossings and Ipswich Northern Route were abandoned by SCC. No evidence that Suffolk will provide any major infrastructure during plan period. In these circumstances, all development in Ipswich will add to existing congestion with no reductions in carbon and an increase in pollution and AQMAs. Makes Draft unsound on a fundamental level. Argument can be made that no major development should take place which would increase traffic until an effective town wide mitigation strategy is in place. Reference to Park and Ride schemes aspirational. No evidence SCC or IBC will fund them.

Policy DM3 Air Quality

Respondent: Clean Air Ipswich
Agent: Clean Air Ipswich

Summary:
Extensive modal shift required in Ipswich to improve air quality, reduce carbon emissions and reduce impacts of traffic from new developments. Suffolk County Council modelling indicates just over 15% modal shift required in Ipswich by 2026 (as well as improvements to existing network). Sustainable travel options in Ipswich are poor/need considerable investment. Insufficient evidence that funding to deliver required improvements is available. Local Plan is unsound - there are insufficient actions and investments proposed to improve air quality and deliver required modal shift. Cycling network is poor - people won't want to cycle and there is lack of cycle training.

Policy DM4 Development and Flood Risk

Respondent: Environment Agency

Summary:
At present, we are raising an unsound representation on Flood Risk grounds. This is because the evidence base that informs the Local Plan is not yet finalised. Further information can be found below.

Change suggested by respondent:
At present, we are raising an unsound representation on Flood Risk grounds. This is because the evidence base that informs the Local Plan is not yet finalised. The Strategic Flood Risk Assessment (SFRA) has not yet been agreed as the River Gipping fluvial model is not yet verified and ready for use. This is because we are still awaiting the final outputs and deliverables for this model. Therefore, there is not currently a reliable evidence base to derive the SFRA and inform the Local Plan. We have and will continue to work in partnership with Ipswich Borough Council on the SFRA. As soon the modelling is completed we will be able to engage further to ensure that the SFRA is finalised and the Local Plan appropriately reflects its findings. A statement of common ground will be prepared if required.

In addition to the above, we have included our comments below on the rest of the Local Plan document. These have been provided in the same format as the Local Plan itself.

In terms of the rest of the policy itself:

Paragraph 9.4.10 needs to make reference to the fact that the SFRA is a living document and is awaiting modelling information to update it.

We fully agree with paragraph 9.4.12 which states that more and less vulnerable development in Flood Zones 2 and 3a may be acceptable but will require Flood Risk Assessments (FRAs) to demonstrate that such developments will be safe.

**Object**

**Respondent:** Suffolk County Council

**Summary:**

NPPF p.165 states "Major developments should incorporate sustainable drainage systems unless there is clear evidence that this would be inappropriate." DM4a) states "... and wherever practicable appropriate application of Sustainable Drainage Systems (SuDS)". Planning practice guidance paragraphs 082 and 083 uses the term "practicable" in reference deciding the most appropriate type, operation and maintenance of SUDS on a site, not the principle of using SUDS. The guidance makes a distinction between the terms "inappropriate" and "practicable". The current wording of the policy is not consistent and could cause confusion. The words "where practicable" should be removed from the policy.

**Change suggested by respondent:**

The words "where practicable" should be removed from the policy. The SFRA needs further work arising from Environment Agency data. SCC will assist the Borough in further developing this piece of evidence.

Policy DM7 Provision of Private Outdoor Amenity Space and New and Existing Developments

**Respondent:** Home Builders Federation Ltd (HBF)  
**Agent:** Home Builders Federation Ltd (HBF)

**Summary:**
DM7 is unsound as it not consistent with national policy or justified. This policy is too prescriptive as to the levels of open space required for homes within Ipswich. Housebuilders understand the market and the amount of open space that people expect and as such this policy needs to provide a greater flexibility. Ipswich is highly constrained and if the Council is seeking to set standards for open space within developments and meet its housing requirements it will need to offer flexibility.

**Change suggested by respondent:**
We would suggest the following wording: “To ensure that new residential developments deliver a high quality and environmentally sustainable living environment, developments for houses and ground floor maisonettes will be required to incorporate well-designed and located private outdoor amenity space of an appropriate type and amount. When considering the provision of outdoor amenity space applicants should have regard to the need to meet other density and urban design requirements of the plan.

26428

**Respondent:** Persimmon Homes  
**Agent:** Persimmon Homes

**Summary:**
Policy DM7 proposes minimum standard areas for private outdoor amenity space, but no evidence could be found that supports the figures detailed, including within local design guides. In addition the application of such standards varies between neighbouring authorities, which would reasonably call into question whether this policy has been adequately justified and is consistent with National Policy, whilst also being effective over the plan period. Where the policy details that lower figures may be acceptable where there is unavoidable conflict with the need to meet density requirements, additional flaws in its effectiveness arise due the questionability of how site densities are calculated given the current limited weight given to market forces and demands for different types of dwellings. Persimmon also endorse the statements made by the HBF.

**26272**

**Respondent:** Habinteg Housing Association

**Summary:**
Strongly support the approach to Part M4(2) accessible and adaptable homes, which ensures that a proportion of new homes will be accessible. However, the plan should use a narrower definition for when the standard may not be applied, which firmly places the burden of proof onto the developer. This will help minimise instances where compliance is argued out during the application process. Ipswich should also set the same requirement for wheelchair user dwellings as the London Plan: 10% of new homes to comply with Part M4(3) Standard (the other 90% to be built to part M4(2) accessible and adaptable standard).

**Change suggested by respondent:**
Habinteg believe that all new homes should be built to Part M4(2) accessible and adaptable to help meet the national accessible homes deficit. We believe the ‘waiver’ language should be firmer, so that there is a narrower definition given for when the standard may not be applied. A definition which firmly places the burden of proof onto the developer which will help minimise instances where compliance with the policy is argued out during the planning permission process. Alongside an increased supply of accessible and adaptable homes it is critical that an adequate number of homes are built to Category M4(3) wheelchair user dwelling standard. We would therefore like to see Ipswich set a similar requirement for wheelchair user dwellings as that set down in the London Plan which requires that, 10% of new homes comply with Part M4(3) Standard (the other 90% required to be built to part M4(2) accessible and adaptable standard).

**Summary:**
No justification has been provided on why there is a need for 25% of all housing on major developments to be designed to Part M4(2) standards in policy DM12. Without justification it could be argued that this figure is too high, as there may be possible overlap between the provision of specialist housing and the provision market housing, on the final delivery of M4(2) housing. This policy would not therefore be effective over the plan period. Persimmon also endorse the statements made by the HBF.

Policy DM15 Tall Buildings

26294

Object

Respondent: RSPB
Agent: RSPB

Summary:
Notable omission to DM15. Representation made at Issues and Options stage suggested inclusion of line in policy, 'k) to incorporate integrated swift-bricks.' Suggestion not included - seen as missed opportunity. Due to national plight of swifts, failing to include could constitute a failure in the Council's 'Duty to conserve biodiversity' under Section 40 of the Natural Environment and Rural Communities Act. Cost of incorporating bricks insignificant and attitude towards them is positive so would not affect Council's ability to exercise functions and would be consistent with County Council's Suffolk Nature Strategy. Inclusion not unprecedented - included in Hackney Local Plan.

Change suggested by respondent:
The RSPB hope that Ipswich Borough Council will consider including this provision in its Local Plan to ensure the precedent is set for conserving biodiversity in its development management policies and demonstrate its continued commitment to swift conservation.

Respondent: Cardinal Lofts (Mill) Ltd
Agent: Cardinal Lofts (Mill) Ltd

Summary:
Whilst generally supportive, objection to exclusion of IP035 from the ‘arc of land’, where tall buildings may be appropriate, as shown on IP-One Area Inset Proposals Map. Costs of developing IP035 are such that high density development, potentially involving ‘tall buildings’, will be required. Council has granted planning permission to redevelop the site for mixed use purposes, with buildings ranging from 7-11 storeys and ‘tall buildings’ have been developed on a number of adjacent sites. Policy will potentially frustrate development of this key Waterfront site - therefore, unsound. Impacts upon adjacent listed buildings and heritage assets, addressed under DM13.

**Policy DM15 Extension to Dwellings and the Provision of Ancillary Buildings**

**Respondent:** Historic England

**Summary:**
Support changes to Policy DM15, but request criterion ‘i’ is amended. Remain concerned that the tall building arc still includes a significant area within the setting of the Grade I Listed Willis Building. One of its most striking features is its curvilinear glass curtain walling that reflects the surrounding buildings. Any new tall building therefore has the potential to impact on the setting, and therefore significance of this important building, and on this basis we advise pulling back the arc boundary in the immediate vicinity. Our Tall buildings advice note provides more information.

**Change suggested by respondent:**
Amend criterion ‘i’ as follows; “Preserves strategic and local views, with particular reference to the settings of conservation areas, listed buildings, scheduled monuments, and other heritage assets, and the wooded skyline visible from and towards central Ipswich.” Pull back the tall building arc on the IP-One policies map.

Respondent: Suffolk County Council

Summary:
DM21 is not in line with national policy in relation to the lack of explanation as to when travel plans are required. The importance of travel plans in achieving modal shift is stated in the SCC Transport Mitigation Strategy for ISPA. A similar approach should be taken with Travel Plans as for Transport Statements and Assessments. The Plan’s explanatory text should refer to the indicative threshold set out in County Council guidance, with the caveat that in some sensitive areas, e.g. affecting Air Quality Management Areas, full travel plans may be required where normally Travel Plan Measures would be acceptable.

Change suggested by respondent:
Amendments to the policy are recommended below. Final paragraph of policy: “The Council will expect (delete: major) development proposals to provide a travel plan or travel plan measures where appropriate, to explain how sustainable patterns of travel to and from the site will be achieved.” Amend paragraph 9.21.8 to further explain the travel plan guidance and what is determined to be appropriate. “The County Council’s Suffolk Travel Plan Guidance, which contains indicative thresholds, will be used to determine the need for a Travel Plan or Travel Plan Measures. Some smaller sites which do not meet the requirements for a full Travel Plan, but are in sensitive locations may require a full Travel Plan to help mitigate traffic impacts.”

Legally: Not specified

Policy DM22 Car and Cycle Parking in New Development

Summary:
Policy unsound and not consistent with national policy. DM22 requires compliance with adopted standards for car and cycle parking. However, these standards are not set out in the local plan but in supplementary guidance. We are concerned that such standards, which are issues of policy as the can be used to refuse an application, being set out in guidance and not the plan itself. Legislation is clear that policy issues must be set out in local plans. This is to ensure that should these standards change then appropriate consultation and public scrutiny of these changes is undertaken.

Change suggested by respondent:
Two options are open to the Council, they can either include the standards as an appendix in the local plan or state in policy that development will need to have regard to the standards.

26584  
**Object**

**Respondent:** Suffolk County Council

**Summary:**
The central parking core is defined in the IP1 area policies map. The West of the town centre (outside the core) has predominantly being for long stay parking (associated with offices/station). DM-22 states that no non-residential long stay car parks will be permitted. It is not clear whether this applies to the whole IP1 area or just the central parking area. The supporting text clarifies that it is for central parking core but to avoid inadvertently encouraging car use and increasing congestion, the control of the supply of additional long-stay spaces must be extended to the whole IP1 area.

**Change suggested by respondent:**
The control of the supply of additional long-stay spaces must be extended to the whole IP1 area. Whilst there is some definition of operational parking through reference to staff parking not being included (para.9.22.8), examples of what would be included would provide a positive position. This could include spaces for deliveries, visitor spaces and potentially spaces for staff who use private transport for visiting clients for example. The county council would welcome the opportunity to discuss how the approach to operational and staff parking within the IP1 area could be effective.

Policy DM27 The Central Shopping Area

Respondent: Threadneedle UK Property Authorised Investment Fund
Agent: Threadneedle UK Property Authorised Investment Fund

Summary:
Note efforts made by Council to reflect previous representation, moving towards allowing greater flexibility of uses within Central Shopping Area. Whilst consider that greater flexibility could be achieved through Policy wording to ensure future town centre vitality and viability, understand that Council will take a pragmatic approach to future applications that exceed proposed thresholds depending on situations faced by the retail market - embedded within Policy wording. However, recommend change to policy position for Primary Shopping Zones to include D2 and C1. Such uses can provide active frontages. Therefore should not be excluded from operations permitted in Primary Shopping Zone.

Change suggested by respondent:
Changes to Policy DM27 wording as follows:
"The Council will not grant planning permission for the use of a ground floor unit to a use falling outside classes A1 to A5, D2 and C1 in Primary Shopping Zones..."

Legally: Not specified
Sound: No

Policy DM28 Arts, Culture and Tourism (formerly policy SP14)

Respondent: Theatres Trust

Summary:
Support this policy and the protection afforded to the borough's valued facilities. We would suggest a minor amendment to Appendix 6 to further improve its robustness reflecting comments we submitted at the previous stage. We suggest paragraph 2.2 requires applicants to market the property through recognised national, regional and local agents, websites and publications appropriate to the type of facility. This would prevent applicants undermining the policy objective by superficially addressing policy, for example listing with small agents in other parts of the country or listing commercial property with residential agents. Otherwise this policy meets the tests of soundness.

Change suggested by respondent:
Suggest paragraph 2.2 requires applicants to market the property through recognised national, regional and local agents, websites and publications appropriate to the type of facility.

Policy DM33 Protection of Employment Land

26431

Object

Respondent: AquiGen
Agent: AquiGen

Summary:
Policy continues to only specifically allow for consideration of no reasonable prospect of re-use for employment purposes for sites outside the Employment Areas. Ambiguity in the supporting paragraphs as 9.32.2 and 9.32.4 suggest that the no reasonable prospect test could be applied to Employment Area land.

NPPF paragraph 120 relates to allocated land and recommends the use of the no reasonable prospect test. Recommend DM33 is amended to allow the test to be applied to all defined Employment Area land. Will ensure plan is consistent with national guidance and flexible to deal with changing market needs. Important given surplus allocation.

Change suggested by respondent:
Recommend DM33 is amended to allow the test to be applied to all defined Employment Area land.

**Attachments:**

26573

**Respondent:** Suffolk County Council

**Summary:**
Table 8a is not in line with NPPF p.34 which explains that plans should set out the contributions expected from development. The plan needs updating to meet this requirement. Early Years: regarding demand in Gipping Ward, the table states that a new setting (e.g. a day nursery) is required, but no site is stated. IP279 would be the County Council’s preference. Primary provision: Cliff Lane Primary should be added to Table 8a for expansion. Secondary provision: Stoke High School and Chantry Academy are identified for expansion. SCC has reassessed and now considers that only Stoke High School needs to expand.

**Change suggested by respondent:**
The County Council will work with the Borough in reviewing the wording and costs in the table and will agree matters through a Statement of Common Ground. Early Years: IP279 would be the County Council’s preferred choice for a setting in Gipping Ward. The site sheet and entry in Table 1 of the Site Allocation Policies document should also be updated in line with this amendment. Primary provision: Cliff Lane Primary should be added to Table 8a (for expansion). Secondary provision: depending on the rate of delivery within Ipswich Garden Suburb, the Council considers that now only Stoke High School needs to expand.

Appendix 6 - Marketing Requirements

26240

Respondent: Theatres Trust

Summary:
Suggest a minor amendment to Appendix 6 to further improve its robustness reflecting comments we submitted at the previous stage. We suggest paragraph 2.2 requires applicants to market the property through recognised national, regional and local agents, websites and publications appropriate to the type of facility. This would prevent applicants undermining the policy objective by superficially addressing policy, for example listing with small agents in other parts of the country or listing commercial property with residential agents.

Change suggested by respondent:
Amend paragraph 2.2 to include "requires applicants to market the property through recognised national, regional and local agents, websites and publications appropriate to the type of facility."

Legally: Not specified
Comply with: Not specified

26434

Respondent: AquiGen

Summary:
Welcome introduction of marketing requirements - offers basis for early agreement with Council. However, aspects are onerous and should be removed. Paragraph 2.1: discussions with Council before marketing unnecessary if marketing requirements in Appendix 6 are followed. Adds hurdle to process/could delay marketing. Paragraph 2.5: welcome amendment to require simple schedule noting origin of enquiry and reason for interest is sufficient. Paragraph 2.6: commercial site not generally marketed at set market value as this is determined by the offer that a purchaser is willing to make. "All Enquiries" exercise is appropriate as it generates enquiries on all potential purchase options.

26331

**Respondent:** Ravenswood Environmental Group

**Summary:**
The plan is poorly prepared and presented and is very difficult to read. It lacks justification and its policies are neither useful to developers or decisionmakers. It is the most poorly presented plan in the region. It needs to demonstrate cross boundary working as happens in Greater Norwich and Greater Cambridge and it needs criteria based policies so that it can be held to account by the public and used successfully by developers. It is vague and the environmental impacts are not justified.

**Change suggested by respondent:**
The plan needs to be rewritten following a proper cooperation with the public and neighbouring Councils.

- **Legally:** No
- **compliant:** No
- **Sound:** No
- **Comply with:** No
- **duty:**
- **Attachments:** None
Object

**Respondent:** Ravenswood Environmental Group

**Summary:**
The plan has not been positively prepared and is poorly presented in an illogical way. There is no cooperation between local authorities such as has happened around Cambridge or Norwich. The plan contains disjointed lists of sites and does nothing to assist decision makers to establish what is or is not acceptable or how various constraints would be overcome.

**Change suggested by respondent:**
Rewrite the plan. Cooperate properly with the public and cross border authorities.

Policy SP2 - Land Allocated for Housing

26181

**Respondent:** Salter and Skinner Partnership  
**Agent:** Planning Direct

**Summary:**
Flooding assessments and extensive consultation undertaken with Environment Agency and emergency services. Feedback positive and carried to EA requirements. No fundamental objections. Concerns of consultees can be met. Site partly within flood zone 1, development can be made safe for its lifetime, refuges can be available on-site, flood evacuation routes can be facilitated to Bourne Park and compensatory storage designed in. Whilst approach routes could be inundated this hasn’t been raised as a fundamental objection by AECOM or Fire Service. As occupants would be safe then considerable weight should be given to the tilted balance in favour of development (NPPF).

**Change suggested by respondent:**
Site IP034 should be included as an allocation under Policy SP2 of the Site Allocations DPD of the emerging Local Plan.

**Attachments:**

26332

**Respondent:** Ravenswood Environmental Group

**Summary:**
Not justified

**Change suggested by respondent:**
Plan needs to be rewritten to justify sites with criteria based policies which deal with the mitigation of development impacts.

**Attachments:** None
**Summary:**
The Policy is supported by site sheets in an appendix. The appendix should make it clear that the site sheets are or are not part of the plan. The plan is vague and unjustified. Site IP150e is adjacent to other sites such as IP150c and IP150e and IP150d. These are geographically related but they are separate in the plan. There is no justification for this piecemeal approach. The plan highlights serious traffic, air-quality, ecology, amenity and heritage constraints but does nothing to resolve these and does not insist upon masterplanning and effective mitigation.

**Change suggested by respondent:**
Propose a new policy to present all of the plans for Ravenswood so that the various sites can be effectively masterplanned and environmental mitigation proposed. It is unacceptable to propose development only with a list of issues whilst not inviting or suggesting how these would be resolved.

**Legally compliant:** No
**Sound:** No
**Comply with duty:** No

**Attachments:**

---

**Summary:**
Fundamental concerns regarding the ability of SP2 sites to viably deliver residential development over the plan period and whether there is a demand for the type of homes that these sites can offer. Some SP2 sites are unavailable and require existing occupiers to relocate and others are heavily constrained by designated heritage assets and areas of archaeological importance. These significant constraints impact the delivery of homes from these sites in principle. Also, the Plan is relying on the delivery of housing from sites in high risk flood zones. The Council should look to identify additional sites outside of its boundary.

**Change suggested by respondent:**
The Council should look to identify additional sites outside of its boundary in collaboration with neighbouring authorities that are more suitable for residential development than those that are at high risk of flooding within its boundary.

**Legally compliant:** No
**Sound:** No
**Comply with duty:** No

**Attachments:**
Respondent: Pigeon Investment Management Ltd

Summary:

Therefore, Pigeon consider that the majority of the sites that the Council has proposed for residential allocation are subject to significant constraints that could delay, or indeed, ultimately prevent their delivery. Whilst many of the sites highlighted may be of a small to medium scale, it is considered that when combined, their implications on housing delivery could be significant. In any case, these provide only a snapshot of the constraints that are likely to impact upon many of the sites that are proposed for allocation.

Respondent: Kesgrave Covenant Ltd
Agent: Kesgrave Covenant Ltd

Summary:
Although support the inclusion of the allocation at Humber Doucy Lane within the Core Strategy document, it should also be included within the Site Allocations and Policies DPD. Omission is neither justified nor effective. Recommend additional line within Table 1 in relation to Humber Doucy Lane: Site ref: ISPA4.1
Site name and development description: Northern End of Humber Doucy Lane
Site size ha (% residential on mixed sites): 23.62ha
(c. 50%)
Indicative capacity (homes): 496
Capacity evidence: 35dph (DM23c)
Likely delivery timescale: M/L
For sake of completeness, Ipswich Garden Suburb should also be included. Recommend amendment to paragraph 4.7 wording.

Change suggested by respondent:
Paragraph 4.7 should be amended to reflect the proposed changes to table 1 with revised wording as follows:
"The indicative capacity of the sites in table 1 listed in the policy above is 6,514 dwellings. These will contribute to meeting the minimum housing requirement of 8,010 dwellings by 2036, as identified through Policy CS7 of the Final Draft Core Strategy. The Final Draft Core Strategy allocates land for the development of approximately 3,500 dwellings at Ipswich Garden Suburb (the Ipswich Northern Fringe) through policy CS10, with delivery expected to start in 2019 and end in 2036. The Core Strategy Review also identifies a cross-border allocation for development (within Ipswich Borough and Suffolk Coastal Local Plan area) for housing delivery, at the northern end of Humber Doucy Lane adjacent to Tuddenham Road, through policy ISPA4."

**Agent:** Associated British Ports

**Summary:**
Support allocation of the Island Site for residential/residential-led mixed use. Support references (paragraphs 4.7 and 4.10) that figures included in table 1a are “indicative”.

Will work with IBC to agree deliverable masterplan to deliver Council’s regeneration objectives subject to commercial viability.

Indicative capacity of 421 homes considered to be high. Consider that the Island Site will deliver a reduced density of approximately 150 units.

Considered inappropriate for Policy to refer to need for “additional vehicular ... access (including emergency access)...to be provided to enable the site’s development”. Matter should be addressed in the masterplan preparation - request reference is removed.

**Change suggested by respondent:**
Request removal of reference to need for “additional vehicular ... access (including emergency access)...to be provided to enable the site’s development”.

26550

**Respondent:** Department for Education (DfE)

**Summary:**
The allocation wording is too restrictive and could potentially frustrate and delay the delivery of the school. The specification of the retention of the locally listed façade is too specific for a site allocation policy, as it is not clear on what evidence this is based. The requirement for a development brief for the proposed primary school site is also considered to be unnecessary, the need for which is not sufficiently evidenced. We propose that the school component of allocation IP048a be stripped out from the policy and included as a separate allocation for a Primary School only.

**Change suggested by respondent:**
We propose that the school component of allocation IP048a be stripped out from the policy and included as a separate allocation for a Primary School only.

**Respondent:** Bloor Homes

**Summary:**
Bloor Homes are promoting land at Humber Doucy Lane, Rushmere St Andrew, (see Site Location Plan Appendix A). Land is situated within both the Ipswich Borough and East Suffolk District. Approximately 115 hectares in size. It presents both a shorter term opportunity for a smaller scheme and a medium-long term opportunity for a larger scale Garden Village development. Development Framework Plans are included (Appendix B). Concerns were raised in relation to the cross boundary approach of working with Ipswich Council and the Site was promoted for a large scale opportunity. The relevant Hearing Statements are included at Appendix C.

**Change suggested by respondent:**
- Include identified site at Humber Doucy Lane as a residential-led allocation.

Respondent: Silverton Aggregates Ltd

Summary:
We support the allocation of sites for residential development. However, it is our view that our client’s site should be considered for residential development in the IP-One Area. The site is adjacent to proposed allocation IP031a, and would make a logical extension to this. It is therefore considered that, at this stage, the emerging Local Plan does not meet the tests of soundness in terms of ensuring the consistent delivery of housing in accordance with National Planning Policy. Please see pages 9-12 and appendices 1 and 2 of the full representation for further information regarding the potential development.

Change suggested by respondent:
The Site should be included as a site allocation for residential development.

Policy SP3 - Land with Planning Permission or Awaiting a Section 106, IP150a – Ravenswood S & T (Adjacent Fen Bright Circle)

26173

Respondent: Ravenswood Residents Association

Summary:
IP150a, IP150d and IP150e equate to 254 houses. Should fully reflect 65.8% private housing and 34.2% social housing mix. Recommend additional new access to Ravenswood to cope with anticipated surge in traffic volumes. Already heavy congestion at access point during; morning/ evening peaks, school drop-off/ pick-up, and, lunch times, which prevents emergency vehicles access. Does “Highway Network” just refer to the Nacton Road/ Thrasher Roundabout or ALL local roads? Second access road should relieve pressure for whole of Ravenswood, not just new sites. Upgrading private road to south of Ravenswood needed as second access. Has additional pupil demand been considered?

Change suggested by respondent:
A new second access road should be included and should serve the whole of Ravenswood, not just any new sites.

26334

Respondent: Ravenswood Environmental Group

Summary:
The Online consultation refers to this as being sites Sand T but these were built out prior to April 2019, The correct reference should be sites U, V, W. It is questioned whether these can be stated as having planning permission as they relate to an historic Outline Planning Permission which is no longer extant.

Change suggested by respondent:
The plan should contain a policy which explains what is proposed for sites U, V, W given that the sites no longer have planning consent and it would be unreasonable to rely on an old planning permission to guide what would be proposed. The site has been removed from the plan without justification.

Policy SP4 – Opportunity Sites

**Respondent:** Gladman Developments

**Summary:**
None of these sites are deliverable or viable. Site IP226 has a non-implemented application for 556 homes, been allocated but not achieved housing completions over the last 20 years, requires business relocation and lies within Flood Zone 3. Given the site’s history and constraints, residential development cannot be assumed as suitable or viable. The evidence suggests that the Council’s current and continued strategy for delivering homes is flawed. The Council by removing sites from the Local Plan submission draft version have significant concerns over site viability and deliverability, and must look to identify significantly more sites outside the Borough’s boundary.

**Change suggested by respondent:**
Therefore, the Council must look to identify significantly more sites, which are realistically deliverable and outside of the Borough’s boundary to meet Ipswich housing needs.

The Ravenswood employment sites should be planned so as to mitigate traffic impacts and be masterplanned with residential development

**Change suggested by respondent:**
The whole area should be masterplanned so that environmental impacts are considered.

- **Legally compliant:** No
- **Sound:** No

**Comply with duty:**

**Attachments:** None
Respondent: Ravenswood Environmental Group

Summary:
The plan proposes site IP152 and site IP150c for a total of 30,000 sqm of business and industry and sui generis uses. There is absolutely no justification for this significant development and no explanation of how it will relate to site IP150b and IP150e when traffic, air quality, noise, heritage and ecological constraints must be resolved comprehensively. The plan does nothing to justify or mitigate its impacts and does not insist upon a new major access to this development area. It merely implies that impacts need to be looked at. Masterplanning and EIA must be insisted upon.

Change suggested by respondent:
Rewrite the plan to provide a criteria based policy which only proposes development upon evidence that the impacts can be mitigated on a comprehensive basis.

Respondent: AquiGen
Agent: AquiGen

Summary:
Land allocated in Table 3 (28.34ha) is significantly in excess of calculated requirement from Evidence Base (23.2ha). The 5.14ha difference equates to 18% of the requirement. Such over provision can only be justified where there are clear reasons for a land supply buffer. No such evidence has been presented in the Plan or Evidence Base. Appropriate to consider reducing the land allocation to reflect actual need. Of the land allocated in Table 3, circa 24ha has been identified as being suitable for industrial uses. This is in significant excess of the 9ha need calculated by the Employment Land Needs Assessment.

Change suggested by respondent:
Review land allocations in SP5 and change so they better reflect the actual need calculated in the Evidence Base.

26653  

**Object**

**Respondent:** Silverton Aggregates Ltd

**Summary:**
The Waterfront area should be extended westwards to encompass the site to the north of Burrell Road, which provides an opportunity for regeneration of the site to a residential use. This would comply with Paragraph 5.22 which states that Policy CS2 focuses on residential and community facility development within the Waterfront in order to support the regeneration and sustainable growth of Ipswich, and mixed use development within the town centre. Consequently, this would incorporate the site to the north of Burrell Road, which is a suitable, available and deliverable site, capable of accommodating residential development to meet unmet need.

**Change suggested by respondent:**
- Extend the Waterfront area boundary westwards to cover the land North of Burrell Road.  
  Allocate the Site for residential development.

Respondent: Historic England

Summary:
Unclear which boundaries are the Opportunity areas and which areas are covered by Policies SP11, SP12, and SP13. Opportunity areas need to be clearly defined and labelled. Chapter 6 of the Site Allocation document provides further information on the opportunity areas, setting out development principles for each area, which we welcome. However, these principles are not set out in policies SP11, SP12, and SP13, and it would appear that the other opportunity areas in this section of the Plan (see our comments regarding the mismatch of opportunity areas above) don’t have policies at all.

Change suggested by respondent:
The opportunity areas need to be clearly defined and labelled on the IP-One policies map. Request that you review the wording for these policies again, identifying which heritage assets (or their settings) would be affected by the proposed development. Where a potential impact is identified, wording should be included in the policy and supporting text to this effect. This wording should incorporate the design principles set out in Chapter 6 of the Plan, and should include/draw on reference, where relevant the Archaeological Character Zone by Archaeological Character Zone recommendations set out in Appendix 3 of the Council’s Development & Archaeology supplementary planning document (SPD) (November 2018), as well as the Council’s Urban Character SPD.

Policy SP15 – Improving Pedestrian and Cycle Routes

Respondent: Mrs Andrea McDonald

Summary:
No coherent walking or cycling route. Especially problematic is the area around the roundabout near St Peters Church. A route from the waterfront/river towpath is divided by the gyratory. River towpath too narrow to cycle on and surface keeps deteriorating. Is there any plan improving the towpath? More usage would make people confident using it. River path needs to be connected with the waterfront. Currently driving is still allowed there (area around the university and various cafes/restaurants). Passing traffic also poses danger to children.

**Attachments:**

---

**Object 26640**

**Respondent:** Suffolk County Council

**Summary:**
IBC’s 2019 WYG parking report assumes a lower rate of traffic growth than that forecast by the Local Plan modelling, even accounting for modal shift. Greater clarity is needed on how the spatial strategy responds to the WYG finding that care is needed to ensure that the proposed level of parking does not inadvertently encourage car use. The “like for like” replacement approach at sites IP051 and IP015 needs clarification to avoid undermining restraint on long-stay provision. Policy needs to shorten any period of additional provision between a multi-storey being opened and a site redeveloped, to support sustainable travel efforts.

**Change suggested by respondent:**
Clarify how the spatial strategy responds to the WYG finding that care is needed to ensure that the proposed level of parking does not inadvertently encourage car use. Clarify the “like for like” replacement approach at sites IP051 and IP015, to avoid undermining restraint on long-stay provision. Include in policy a mechanism to shorten any period of additional provision between a multi-storey being opened and a site redeveloped.

- **Legally compliant:** Not specified
- **Sound:** No
- **Comply with duty:** Not specified

**Attachments:**
Respondent: Councillor Oliver Holmes

Summary:
Based on flawed 2019 Parking Strategy:
- Doesn't acknowledge contribution to carbon reduction that of reduced car trips into town
- Assumption for modal shift of 10% of trips by end of plan period without evidence
- No analysis of Princes Street car park spaces used by train commuters, providing little economic benefit
- Assumption that temporary car parks will disappear without evidence
- Temporary and long stay car parks should be differentiated
- No analysis of why park and ride schemes aren't viable
- Contribution towards air quality not quantified

Suspicion that fee income wins over policy. Until proper analysis, no multi-storey car parks site allocated.

Opportunity Area A – Island Site

Respondent: Associated British Ports
Agent: Associated British Ports

Summary:
Welcomes statement that Opportunity Area descriptions, development principles and plans will act as concept plans to guide the development and should be adhered to unless evidence indicates a better approach to deliver plan objectives.
Notes statement that allocation policies of the DPD take precedence over Opportunity Area guidance and site sheets - notes that there are discrepancies between these respective parts of the DPD which would benefit from clarification.
Request changes to text under “Opportunity Area A – Island Site”.

Attachments:
Change suggested by respondent:

Under ‘Development Opportunities’
- Concern about the amount of green areas including reinstatement of the tree lined promenade required.
- The old lock gate area is not suitable for leisure uses.
- Live Work units may not be viable in this location.
- Office use (other than small scale) is not considered appropriate in this location.
- The potential for small scale retail / café / restaurants will be subject to viability and market demand.

Under ‘Development Principles’.
- The retention of historic structures may be unviable to retain.
- Reinterpretation of the historic lock as a focus to new public space may not be compatible with operational and safety requirements.
- Generally low to medium rise development (3, 4 and 5 storeys).
- The requirement for vehicular access (including 73 emergency vehicles) and bridge across New Cut to link to Felaw Street is yet to be established and may not be necessary.
- What is meant by “prejudice to the potential provision of a full Wet Dock Crossing” needs to be better understood in the context of this being no more than an aspiration.
- Layout to facilitate location of new foot/cycle bridge from New Cut to St Peter's Wharf (it is not clear what this means).
- Ensure suitable public transport provision (it is not clear how this is expected to be achieved).

Opportunity Area B – Merchant Quarter

26242

Respondent: Ortona Properties Ltd

Summary:
Bus station is included within Opportunity Area B, however IP054b should be extended north to include the bus station. The future redevelopment of part/ all of the site could enhance connectivity by providing a pedestrian-friendly mixed-use area to link Turret Lane to Dogs Head Lane and the Buttermarket. The land (in red) is under lease as a bus station, however given wider regeneration aims for this area, IP054b should be extended north to cover the opportunity area. This would ensure that the plan remains flexible over the plan period, particularly towards the end and ensure plan soundness.

Change suggested by respondent:
Amend Site Allocation IP054b to cover the bus station in the Opportunity Area.

Company controls important sites in the Merchants Quarter. Concerned that the Development Options plan, together with the Development Principles, are not sound in that they will render development unviable and frustrate proposals to bring sites forward. Whilst do not take issue with the objectives for the Merchants Quarter, of the view that: North-South Linkages through IP035 are in the wrong location; Proposals for a new ‘urban focal space’ on IP035 are oversized and over-ambitious; IP035 capable of accommodating buildings of more than five storeys without having adverse impact upon the setting of adjacent listed buildings or historic environment.

Opportunity Area C – Mint Quarter and surrounding area

As articulated at the previous stage we are supportive of these plans and of enhanced linkages to the Regent Theatre. We consider this to meet the tests of soundness.

Change suggested by respondent:

- Legally: Not specified
- Compliant: Not specified
- Sound: Not specified
- Comply with duty: Not specified

Attachments:
The ‘Development Principles’ for Mint Quarter (Opportunity Area C) set out that development should ‘respect and enhance setting of Listed and historic buildings’. This is not considered to wholly comply with the NPPF p.197 which requires an assessment of the asset’s significance (with regard to non-designated assets), and a balanced judgement to be made thereafter. NPPF p.184 dictates that assets ‘should be conserved in a manner appropriate to their significance’, which does not necessarily equate to ‘enhancement’ in every scenario. The terminology ‘historic building’ is also not robust or consistent with the NPPF.

**Change suggested by respondent:**

We propose that the wording be amended to reflect the requirements in the NPPF, and the distinction between designated and non-designated assets.

**Legally** Not specified

**Sound** No

Site Sheets, Site Ref: IP032 (Policy SP2 & SP6) King George V Field, Old Norwich Road

Respondent: Trustees King George V Field

Summary:
The use of this field for housing has been under discussion with developers and council staff as long as twenty years. It originally envisaged housing for the entire site rather than partially over the site which the current plan indicates. For the playing field to regenerate itself it will need to be sold for development and then a multi-sports field provided in Whitton separately. The Trust would have insufficient funds if development goes ahead as set out in the Local Plan. Don’t object to principle but site cannot be vacated until alternative arrangements made.

Change suggested by respondent:
- Amend site boundary to cover entirety of playing fields.
  - Legally compliant: Not specified
  - Sound: No
- Comply with duty: Not specified

Attachments:
Respondent: Sport England

Summary:
Sport England raises no objection to this allocation, but we feel the text in relation to the requirements for a replacement facility should be more explicit and should reflect Sport England’s policy in relation to replacement playing fields (see proposed change). Including the recommended text within the policy or supporting text would make Sport England support at application stage more likely.

Change suggested by respondent:
"The area of playing field to be lost as a result of the proposed development will be replaced, prior to the commencement of development, by a new area of playing field:
• of equivalent or better quality, and
• of equivalent or greater quantity, and
• in a suitable location, and
• subject to equivalent or better accessibility and management arrangements."

Site Sheets, Site Ref: IP035 (Policy SP2) Key Street/ Star Lane/ Burtons (St Peter’s Port)

26566

**Respondent:** Cardinal Lofts (Mill) Ltd  
**Agent:** Cardinal Lofts (Mill) Ltd

**Summary:**
Welcome but site has greater capacity than is indicated – required to make development viable. Number of abnormal development costs: Archaeology, hydrology, listed buildings, land contamination, flooding, air quality, design restriction (listed churches). Costs of developing the site are very high. To be justified, much higher number of dwellings, and greater density, required. Needs to incorporate parking for new residential units, together with parking for parts of IP206 and IP211, which have not yet been built out. If remaining parts of these developments are to be brought forward some parking must be provided on an adjacent, accessible, site.

**Change suggested by respondent:**
Increase the residential capacity of site IP035. Needs to be reference to future development of IP035 having to incorporate an element of car parking, for both residential units to be accommodated thereon and for further residential units to be developed on IP206 and IP211.

Respondent: Associated British Ports
Agent: Associated British Ports

Summary:
Support allocation for residential/residential-led mixed use. Will work with IBC to agree masterplan to deliver regeneration objectives subject to commercial viability. Vision for site (agreed with partners and the LEP) does not envisage 'high density' development. Indicative capacity (421 homes) considered high. Consider Island Site will deliver reduced density of approx. 150 units. Development should be sensitive to existing site uses. Disagree with reference to requirement of road bridge to enable development at Island Site. Access required dependent on development - reduced density may not require additional access. Object to requirement of 15% open space - more than minimum requirement.

Change suggested by respondent:
Reduce capacity to 150 units.

Site Sheets, Site Ref: IP048a (Policy SP2, SP6 & SP17) Mint Quarter/ Cox Lane East regeneration Area

26547

Respondent: Department for Education (DfE)

Summary:
Generic requirements in the overall allocation IP048a cause potential conflict with the delivery of a Primary School expediently at the site. The requirement to develop residential uses at upper floors would not be necessarily wholly deliverable with a Primary School and therefore we propose that the supporting text to the allocation makes clear that residential accommodation should only be provided where feasible and appropriate. The allocation wording is too restrictive regarding retention of the locally listed façade. The requirement for a development brief is unnecessary. The school element should be a separate allocation. (See also SP2 & Opportunity Area C).

Change suggested by respondent:
We propose that: the supporting text to the allocation makes clear that residential accommodation should only be provided where feasible and appropriate; the wording be amended to reflect the requirements in the NPPF regarding assessment of an asset’s significance and the distinction between designated and non-designated assets; the development brief requirement be removed; the school component of allocation IP048a be stripped out from the policy and included as a separate allocation.

Legally compliant: Not specified
Sound: No
Comply with duty: Not specified

Site Allocations and Policies (Inc IP-One Area Action Plan) DPD Review Final Draft

**Site Sheets, Site Ref: IP141a (Policy SP5) Land at Futura Park, Nacton Road (formerly the Cranes Site)**

**26259**

**Respondent:** AONB

**Summary:**
The Futura Park sites lies within 200m of the boundary of the Suffolk Coast & Heaths Area of Outstanding Natural Beauty and therefore lies within the setting of the nationally designated landscape. Whilst we acknowledge that much of this site is already built out and is physically separated from the AONB by the A1189, any future development especially site IP141a should be supported by an assessment of impacts on the Natural Beauty of the AONB. The need for such an assessment should be reflected in the policy text for this site.

**Change suggested by respondent:**
The need for an assessment of the AONB should be reflected in the policy text for site.

- **Legally compliant:** Not specified
- **Sound:** No

**26433**

**Respondent:** AquiGen

**Agent:** AquiGen

**Summary:**
Consider sites should be removed from employment use allocation. After extensive marketing, no interest in Site 1 for B Class uses, despite designation within New Anglia Enterprise Zone. Site 1 has different townscape character due to proximity to residential properties, relationship with Ravenswood Centre and Nacton Road frontage. Could accommodate non B Class uses benefiting from road-side prominence and pedestrian accessibility - economic and social benefits for area. Plans for Site 3 have met B Class demands. Removal will not impact on employment land supply due to over allocation. If retained, changes needed to "Development constraints/issues" text. Current wording restrictive.

**Change suggested by respondent:**
Remove employment allocation or change constraints/issues text as follows:
- Remove phrase "....and avoids utilitarian single volume warehousing" to ensure plan is sufficiently flexible and allows schemes to be justified on their own merits.
- Change text to: "Development along IP141a should explore the ability to address both Nacton Road and Crane Boulevard with active and/or positively designed frontage, and avoid being set back from the highway by extensive car parking to allow for greater street scene impact, unless this can be justified as an appropriate response” to provide flexibility and support delivery of site 1.

**Object**

**Respondent:** Ravenswood Residents Association  

**Summary:**
Is the access to this B1 site for offices etc. to be via the new IP150e 126 housing development? This would need to be masterplanned. Recommend additional new access to Ravenswood is masterplanned with sites IP150e and IP152 to cope with anticipated surge in traffic volumes. Already heavy congestion at access point during; morning/ evening peaks, school drop-off/ pick-up, and, lunch times, which prevents emergency vehicles access.

**Change suggested by respondent:**
Recommend additional new access to Ravenswood is masterplanned with sites IP150e and IP152 to cope with anticipated surge in traffic volumes.
  - Legally: Not specified  
  - Comply with: Not specified  
  - Attachments: Not specified
**Summary:**
The plan is proposes site IP152 and site IP150c for a total of 30,000 sqm of business and industry and sui generis uses. There is absolutely no justification for this significant development and no explanation of how it will relate to site IP150b and IP150e when traffic, air quality, noise, heritage and ecological constraints must be resolved comprehensively. The plan does nothing to justify or mitigate its impacts and does not insist upon a new major access to this development area. It merely implies that impacts need to be looked at. Masterplanning and EIA must be insisted upon.

**Change suggested by respondent:**
- **Legally compliant:** No
- **Sound:** No
- **Comply with duty:** No
- **Attachments:** None

**Site Sheets, Site Ref: IP150d (Policy SP2) Land south of Ravenswood**

**Summary:**
Skylarks have been seen nesting on this area. Bee orchids have been seen flowering in this area - which is protected under Section 13 of the Wildlife and Countryside Act (1981). These are 2 rare and protected species. The traffic connection at the main roundabout, the only access to/from the Ravenswood estate, is beyond breaking point. Over 30 minute traffic jams in and out of estate particularly during school drop off/collections, retail/restaurant deliveries and times of high demand, peak commuter times and when roundabout congested. Local amenities (doctors, dentists and schools), sewage and drainage are at capacity.

**Change suggested by respondent:**
- **Legally compliant:** Not specified

26182

**Respondent:** Hilary Scott

**Summary:**
There is already insufficient car parking as people park illegally throughout Ravenswood. Traffic congestion in Ravenswood is a nightmare. The addition of 126 homes will only worsen this. More homes should be built in central Ipswich rather than on the green land in the outskirts which is bad for wildlife, climate change and traffic pollution/congestion. A park or a lake should be pursued instead to enhance the area and encourage more wildlife. We need more green spaces, trees and areas of natural beauty no more homes in already overpopulated developments.

**Change suggested by respondent:**
It should be used as green space with a park or lake instead.

Respondent: Mrs Helen Abbott

Summary:
There would be a significant detrimental impact to the local transport network which is already an issue on the estate. With only one entrance/exit there are already problems with access, particularly during the morning and evening rush hour which is not helped by the passing traffic blocking the main roundabout on Nacton Road, and also the additional traffic at McDonald’s on the Ravenswood roundabout. Adding additional housing to this already hugely congested area and potentially upwards of 250 extra vehicles (realistically this would be more) is irresponsible without a major revision to the access points provided onto/off of the estate.

Respondent: Mrs Jacky Robson

Summary:
Main concern is that this, in conjunction with the proposal to build houses next to the primary school in Downham Boulevard, will put intolerable pressure on the vehicular access in and out of Ravenswood. This is aggravated by the amount of queuing traffic generated by Macdonalds restaurant, situated near the only entrance/exit. Apart from the traffic problems, Ravenswood seems to have been well-designed with good cycle paths, bus routes etc. I do hope that you will re-consider this decision, and look carefully at the idea of incorporating another entrance/exit to Ravenswood.

**Respondent**: Mr Jonathan N/A

**Summary:**
Generally supportive of a mixed tenure development on this site in line with recent SOS verdict. However, cannot support development until IBC takes significant measures to improve the flow of traffic in the area. The roundabouts at the entrance to Ravenswood are a significant bottle neck, causing dangerous congestion due to illegal manoeuvres. Traffic is regularly problematic at rush hour, but also at other hours due to the popularity of McDonald’s. Solutions might include additional entrances to the residential areas (with measures to prevent use as a cut through), additional entrances to Ravenswood retail park, additional lanes between roundabouts.

**Respondent**: Cindy Lawes

**Summary:**
Object. A suburb this size should not have only one entrance and exit. The additional 126 houses will bring additional vehicles into the suburb, and this will exacerbate problems. We have to manage through the Henning Road roundabout, which is frequently blocked by people trying to get into the MacDonalnds and then out the suburb onto a major roundabout. The Orwell Bridge closures worsen this. Another access road off the A1189 will not alleviate any of the problems. The doctor’s practice is already stretched and this was worsened by the closure of Landseer Surgery. Inadequate health facilities for new residents.

Site Sheets, Site Ref: IP307 (Policy SP2) Princes of Wales Drive

26162

**Respondent:** Mrs RoseMarie Cornish

**Summary:**
Too dense and out of character with the surrounding area. It would be claustrophobic and cause distress with no enhancement or asset to the area. Prince of Wales Drive is a nightmare with parking and the volume of traffic. Halifax School is a bottleneck and results in wide spread on-street parking. Proposed cars will park on the pavement. Loss of views towards River Orwell. Loss of privacy. Noise nuisance. Not within our Human Rights. The shop is a valuable community asset in walking distance, needed due to ageing population. See proposed changes to plan. Green is important habitat for species.

**Change suggested by respondent:**
Bungalows instead of two storey houses or three storey flats.

Halifax School should be approached in favour of building an extension (Nursery) on the land. This would solve much needed places for children within the area and help alleviate parking problems.

Respondent: Ipswich Rugby Football Club (Ipswich RFC)

Summary:
Ipswich RFC serves the local rugby playing community and has a requirement for extra land to meet the demands for it. Land at Humber Doucy Lane adjacent to IP184b is currently leased to meet demand but more space needed. We do not wish to be omitted from any land allocation as the funds realised by land sale could greatly assist the club in better meeting demands. We are also seeking to expand our offering if larger replacement playing facilities adjacent to current pitches are made available or a new site identified. Site IP184b should be included within the ISPA4.1 allocation.

Change suggested by respondent:
Include site IP184b within the ISPA4.1 allocation.

Legally: Not specified
Comply with: Not specified

Respondent: Jo Porter

Summary:
Development of IPS4.1 would; create urban effect in rural area; destroy habitats, trees, hedges, crops; destroy designated green spaces and green rim; attracts endangered wildlife and variety of animals; create air pollution; traffic infrastructure is not capable, including Tuddenham Road and Humber Doucy Lane; local high school and primary school at capacity; no safe walking/cycling route; wastewater issues, including lack of sewage infrastructure; drainage (at capacity); economy issues; extra noise; loss of natural light; and 600 houses is too many.

Change suggested by respondent:
IF, this plan is agreed then there MUST be consideration for drainage, safety with regards to traffic overload, cycle lanes and dual school catchment areas with a reduced amount of proposed dwellings - over 600 houses is too high and this will inevitably destroy the countryside which it will border.

Appendix 4 - Opportunity Areas, Site Ref: IP028b (Policy SP4) Jewsons, Greyfriars Road

26604

**Respondent:** Suffolk County Council

**Summary:**
The text refers to Archaeological Character Zone 2, but the site lies within Archaeological Character Zone 1b, for the Historic Core, and is therefore of a higher sensitivity than indicated on the site sheet. This text should be corrected to ensure that heritage assets are appropriately identified and approached by development. New text is proposed at the start of the paragraph after the heading 'Development Constraints' and existing text should be amended as follows: delete sentence 'This site likely lies in...' and sentence 'Stratigraphy may be expected to be particularly deep ...' in their entirety.

**Change suggested by respondent:**
Add after Development Constraints heading: 'The site lies on the edge of the River Gipping, within the likely former extent of the precinct of the medieval Franciscan friary (Greyfriars). There is potential for archaeological remains relating to the friary to survive on the site, as well as earlier occupation on the edge of lower lying marshy land. Within the western part of the site, marsh deposits have been identified, but human remains were recorded during construction of the eastern side of the existing buildings on the site. Detailed early pre-application discussions with Suffolk County Council Archaeological Service would be required to agree the scope of required assessment and to inform design (e.g. to allow for preservation in-situ of deposits or appropriate programmes of work).’ Also delete 'This site likely lies in the former extent of the town marsh' and 'Stratigraphy may be expected to be particularly deep in former streams and watercourses and waterlogged features are recorded in the Urban Archaeological Database.'

**Respondent:** GeoSuffolk  

**Summary:**  
The key is out of date. County Geological Sites and Regionally Important Geological Sites are all called “County Geological Sites” now. The five locations of the sites are correct, only the key is wrong.

**Change suggested by respondent:**  
Change the key description to “County Geological Sites”.

**Respondent:** Mersea Homes Limited  

**Agent:** Mersea Homes Limited  

**Summary:**  
With regard to land use designations within the IGS, there is a lack of clarity/consistency to terminology, and in any event there is no need for specific land use allocations within the overall IGS, or justification for the specific areas shown.

**Change suggested by respondent:**  
Removal of land use allocations within the overall IGS allocation, or at least adjustment to the key/text to make clear that all are indicative.

- **Legally compliant:** Yes  
- **Sound:** No

**Attachments:** None
**Summary:**
Object to identification of land west of Tuddenham Road, north of Ipswich Millennium Cemetery as "Land Allocated for Sport Use" as it is not required for this purpose. The release of the Ipswich School land at Notcutts Field, as part of the allocated Ipswich Garden Suburb is not currently considered viable. The school owns other land that would provide suitable land for replacement playing fields within the vicinity and has invested significantly in new and improved facilities at Rushmere St Andrew Sports Centre. It is proposed the site is allocated for 500 dwellings. See accompanying letter for details.

**Change suggested by respondent:**
Allocate the site for 500 dwellings and not sports use.

**Supporting Documents, Ipswich Local Plan Policies Map (IP-One Area Inset) Final Draft**

---

**Summary:**
Objection to inclusion on the IP – One Inset Map of a route for the Wet Dock Crossing. Whilst supportive of IBC's intention to continue to make a case for highway improvements including Wet Dock Crossing, given there is no formal commitment to this it is not appropriate for Policies Map IP – One Area Inset to define an alignment of a potential route for a Wet Dock Crossing and for SP9 to effectively safeguard this. Whilst this may not be the intention of the wording, it can be interpreted this way - request appropriate amendments.

**Change suggested by respondent:**
Request amendment of wording of the Policy and Inset Map with reference to Wet Dock Crossing.

- **Legally compliant:** Not specified
- **Sound:** No
- **Comply with duty:** Not specified

**Attachments:**
Regarding the delineation of the opportunity areas, it is unclear which boundaries the Council is promoting through this Plan, and which areas are covered by Policies SP11, SP12, and SP13. The Policies Map IP-One Area inset and Chapter 6 of the Plan shows detailed boundaries for eight opportunity areas. However, these areas do not match up with illustrative boundaries in The Ipswich Key Diagram. The opportunity areas need to be clearly defined and labelled on the policies map, so that it is clear which policy and supporting text relates to which area, and the extent of the land in question.

**Change suggested by respondent:**

The opportunity areas need to be clearly defined and labelled on the IP-One policies map.

Sustainability Appraisal Report Final Draft
1 - Introduction

Highly material is the decision/judgement released from The Supreme Court on Climate Change and development-(Heathrow)\(^1\). This needs referencing and being taken into account within Local Plans as it is a fundamental game changer with respect to Local Plans, Strategic Planning and Local Development Control and Planning Committee decision making. This new case law could make Local Plans, where Paris Agreement on climate change, (concluded in December 2015 and ratified by the United Kingdom in November 2016) isn’t adequately taken into account or doesn’t demonstrate conformity to within Strategic Environmental Assessment challengeable and potentially unlawful. Extract from judgement included.

Change suggested by respondent:

- New case law of the Heathrow Supreme Court Decision needs to be taken into account.

  - Legally: Not specified
  - Comply with duty: Not specified

3 - Stage B: Developing Alternatives and Assessing Effects

Appears that environmental, social and economic effects of plan(s) are inadequately/ inaccurately assessed against HRA and the SA. The SEA Directive requires that assessment include identification of cumulative and synergistic effects, including other neighbouring local authorities. The SA does not appear to take account of the cumulative effect of CSs Plans of neighbouring authorities with regard to housing, employment and especially transport/traffic and increased air pollution and traffic congestion. Needs to fully assess the implications on building on HDL and whether delivering more homes in the town centre instead of retail expansion might be a more sustainable option.

Change suggested by respondent:

- Needs to fully assess the implications on building on HDL and whether delivering more homes in the town centre instead of retail expansion might be a more sustainable option.

  - Legally: Not specified
  - Comply with duty: Not specified
**Summary:**

The proposal to allow development in north-east Ipswich at the northern end of Humber Doucy Lane and Tuddenham Road is not justified and therefore unsound. Land in the centre of Ipswich earmarked for expanded retail and car parking (which we believe is surplus to requirements), should be used for new homes instead. There is no SA of this viable alternative.

**Change suggested by respondent:**

Land in the centre of Ipswich earmarked for expanded retail and car parking should be assessed as a viable alternative.

- **Legally compliant:** Not specified
- **Sound:** No
- **Comply with duty:** Not specified

**Attachments:**

---

**Summary:**

No SA of:

- Lack of sewage infrastructure for IGS and ISPA and environmental impacts of new sewage infrastructure (emissions and traffic congestion)
- air quality or noise assessment in relation to rail transport (Ipswich Chord and Freight yard) and additional freight to/from Port of Felixstowe,
- environmental impacts of Port of Ipswich.
- potential impacts of increased freight traffic on IGS pedestrian bridge and Westerfield rail crossing
- decision to destroy Green Rim by building homes on ISPA4 and re-designating as Green Trails.
- lack of full appraisal of the impacts on building ISPA4.
- omitting Climate-Emergency Declaration

**Change suggested by respondent:**

Update SA with required assessments.

- **Legally compliant:** No
- **Sound:** No
- **Comply with duty:** Not specified

Appendix F sets out our full concerns. In summary, the SA has not considered the spatial strategy actually set out in the Local Plan. An option has been assessed which the Council consider to be close to the spatial strategy chosen, but they are different. It appears that Spatial Option 1, the option most closely aligned with the spatial strategy in the Local Plan, has been scored unjustly positively in some areas, and Spatial Option 2 has been scored more poorly. The SA prepared alongside the emerging Local Plan does not provide the necessary justification of the proposed spatial strategy.

Change suggested by respondent:
The SA requires updating to accurately score/assess the spatial options and then review whether the strategy proposed is suitable and reasons for rejection (if still applicable). A direct assessment of the spatial option proposed is required.

### 4 - Stage C: Prepare the SA Report

**26288**

**Summary:**
We are satisfied that the methodology and baseline information used to inform the report appears to meet the requirements of the SEA Directive [2001/42/EC] and associated guidance. Furthermore, the final SA contains a robust assessment of the environmental effects of plan policies and allocations on statutorily designated sites and landscapes including the Orwell Estuary SPA, SSSIs and the Suffolk Coast and Heaths AONB and has taken into account both our advice and the findings of the HRA.

**Change suggested by respondent:**

### 26373

**Summary:**
SA simply assumes that CS fully implemented and full funding for all measures secured. No evidence that IBC can deliver improvements in walking, cycling and bus infrastructure, improved road infrastructure and unprecedented levels of modal shift. IBC and SCC's record in these areas is dire. SA incomplete and underplays key issues. Needs to fully assess air quality impacts including from rail/sea, additional road infrastructure required, re-designation of Green Rim, alternatives to HDL (and SCDC no longer needs this to meet housing target), flood risk and new sewage infrastructure. Needs to assess robustness if unprecedented levels of modal shift underachieved.

**Change suggested by respondent:**
Needs to fully assess air quality impacts including from rail/sea, additional road infrastructure required, re-designation of Green Rim, alternatives to HDL (and SCDC no longer needs this to meet housing target), flood risk and new sewage infrastructure. Respondent: Save Our Country Spaces

Summary:
The housing requirement in Suffolk Coastal has been reduced by the Planning Inspector from 582 homes pa (10,476) 2018-2036 to 542 pa (9,756). Suffolk Coastal no longer needs the land at Humber Doucy Lane to provide the 150 homes (to be built after 2031) it had included in its final draft plan10 (paragraph 12.209). The SA fails to assess this and is unsound.

Change suggested by respondent:
SA needs to assess reduced housing figure of Suffolk Coastal.

Supporting Documents, Habitats Regulations Assessment of the Ipswich Borough Council Local Plan at Final Draft Stage (Sept 2019)

26287 Support

**Respondent:** Natural England  
**Agent:** Natural England  
**Summary:**  
We are satisfied that the Habitats Regulations Assessment has provided a robust assessment of the Ipswich Local Plan final draft, in accordance with the requirements of the Conservation of Habitats and Species Regulations 2017 (as amended) and having regard to relevant caselaw. We are pleased that the recommendations for the strengthening of policy wording in the HRA screening report have been incorporated within the final draft of the Core Strategy, and issues carried forward into the Appropriate Assessment stage as we would expect, with recommendations for appropriate mitigation.

Object

Respondent: Save Our Country Spaces

Summary:
Opening comments on SA, apply to HRA.
HRA incomplete and must address impacts of:
1. Proposed re-designation of Green Rim.
3. Required traffic infrastructure identified by traffic modelling
5. Emissions from rail and shipping.
If no such assessments are included in the HRA then needs to explain why. IBC’s response to the recommendations in relation to Paragraph 1.29 is not acceptable. CS needs strengthening to ensure compliance with this recommendation especially given Green Rim redesignation. Also whether lack of S106 payments for RAMs IGS sites acceptable.

Change suggested by respondent:
Update HRA.
