13th March 2017

Dear Sirs

RE: The Environmental Permitting (England and Wales) Regulations 2016

I write following the reception inspection in relation to your permit issued under the above regulations.

While much of the permit was being complied with the following matters require attention –

- 1 It is important that you send the monthly inventory sheets to the Council every quarter (Condition 3)
- 2 All maintenance and certificates must be kept up to date and available for inspection. The next service was due at the time of the visit.
- 3 All solvents must be stored in a bunded area and as detailed in condition 12 and 22. The waste outside should be stored in as per condition 22. The containers stored inside should be in a bunded area.

Thank you for your cooperation during the visit

Yours faithfully

David Rowe
Senior Environmental Protection Officer
