Bridge Wood Walking Routes

The perfect place to escape the bustle of the town, Bridge Wood is an escape into the natural world through a woodland walk that meanders down onto the shore of the Orwell Estuary.

These walks aim to show you some of the best features of the Bridge Wood but there is still plenty to explore outside of these suggested walks, so go and explore what the country park has to offer. Please be advised that there are several areas of steep and uneven terrain including steep steps within the woodland.

Take in the stunning views of Orwell Estuary on the black walk or explore the woods on the red and yellow routes. Between October and March please keep away from the mudflats (on the black walk) and keep your dog on a lead along the banks of the Orwell to avoid disturbing internationally important flocks of birds.
