Town and Country Planning (Local Planning) (England) Regulations 2012 (as amended)**

**Adoption Statement for:
The Low Emissions Supplementary Planning Document**

Notice is hereby given, in accordance with Regulations 14 and 35 of the Town and Country Planning (Local Planning) (England) Regulations 2012 (as amended), that on 17th November 2021, Ipswich Borough Council ('IBC') adopted the Low Emissions Supplementary Planning Document ('SPD') under Section 23 of the Planning and Compulsory Purchase Act 2004 (as amended).

The Low Emissions SPD aims to improve air quality across Ipswich through new development. This will be achieved, where possible, through either preventing new emission sources or encouraging emission reductions, physical activity and healthy lifestyle choices.

The Low Emissions SPD directly supports the delivery of two aspects of Local Plan policy.

1. The first concerns the impact of development across the Borough on air quality, and vice versa where poor air quality could impact on the occupiers of development.

2. The second concerns car parking guidance for development within the IP-One Area of central Ipswich and how parking provision could influence travel choices and consequently affect the contribution vehicle emissions make to air pollution. Supporting active travel also benefits public health.

Modifications to the Low Emissions SPD made in response to representations received through public consultation on the draft Low Emissions SPD have been addressed through the document, 'Summary of Representations and IBC Responses'.

Inspection of documents

The following documents are available for public inspection free of charge on the Council's website (www.ipswich.gov.uk/low-emissions-spd):

- The Low Emissions SPD;
- The Low Emissions SPD Adoption Statement;
