

Dear Annette

I have been heavily involved in Ipswich in the referendum campaign, just concluded. I have not had the opportunity to prepare a written submission by today's deadline. However, I have been able to contribute in a small way to the written submission presented by the Northern Fringe Protection Group, and I am pleased to add my endorsement to that submission.

My chief concerns are, as you know, the detrimental effect the development of the proposed Ipswich Garden Suburb on traffic congestion and air quality, especially on the already congested roads in west central Ipswich. (Valley Road, Norwich Road, Chevalier Street, Bramford Road and Yarmouth Road) and the associated junctions. These concerns are well reflected in the NFGP submission.

Kind regards

Martin
