Risk Assessment Score Sheet for 'Reduced Fee' Activities

Dry Cleaning

Name of permitted	Quality Dry Cleaning, 269 Norwich Road,		
process:	Ipswich, Suffolk, IP1 4BS	PG Note	6/46 (04)
	·	=	

Name of person with whom score sheet

discussed: Mr Fahriye Kuru Permit reference EP39/05/BA

Inspector's Name Phil Hamblin Date 03/11/2023

Operator Performance Appraisal

Component 1 - Compliance Assessment				
Scale of Non-Compliance	Possible Scores	Score		
(a) Incident leading to justified complaint but no breach of any permit condition	0 points	0		
(b) Incident leading to a justified complaint*	5 per incident	0		
(c) Breach of authorisation not leading to formal action	10 per incident	0		
(d) Incident leading to formal caution, Enforcement Notice or prosecution	15 per incident	0		
(e) Incident leading to a Prohibition Notice	20 per incident	0		
Total	(Max 50)	0		

Component 2 - Assessment of Monitoring, Maintenance and Records					
	Possible Scores				
Criterion		No	N/A	Score	
(a) All monitoring undertaken to the degree required in the permit?* For dry cleaners: Are loads weighed and weights recorded for all loads? Does the operator maintain a weekly inventory of solvent usage, product cleaned, and solvent waste sent of recovery or disposal? All other sectors: Are emissions and emissions monitoring recorded as required in the permit?	0	10	0	0	
(b) Process operation modified where any problems indicated by monitoring?	0	5	0	0	
(c) Fully documented and adhered to maintenance programme, in line with permit? For small waste oil burners: Does the operator have records showing that each appliance has been serviced regularly in accordance with the manufacturer's instructions? For petrol stations: Has a written maintenance programme for pollution control equipment been provided to the regulator? For vehicle refinishers, gas odorisers and mobile plant: Is an appropriate maintenance schedule in place and available upon request?	0	5	0	0	
(d) Full documented records as required in permit available on-site? For small waste oil burners: Are there records of servicing for a minimum of two years prior to inspection? For petrol stations: Is there a log book at the permitted premises incorporating details of all maintenance, examination and testing, inventory checking, installation and repair work carried out? For vehicle refinishers: Does the operator keep records of inspections, tests and monitoring in relation to the provisions of the permit and make them available to the regulator on request?	0	5	0	0	
(e) All relevant documents forwarded to the authority by date required?*	-5	10	0	0	
For mobile plant: Has operator notified the regulator promptly of all relocations of all plant?					
Total score		(-5 to 35)			

^{*} These aspects relate to the operator's performance within the 12 months immediately preceding the assessment or review of the assessment. Failure to monitor to the degree required or to forward documents on time more that 12 months ago should be excluded.

Criterion Criterion Possible Score	Component 3 - Assessment of Management, Training and Responsibility					
(a) Documented procedures in place for implementing all aspects of the permit? For dry cleaners: Are all operating staff aware of where the operating manual for each dry cleaning machine can be found and do they have ready access to it? For small waste oil burners: Are clear instructions available at all times on or near the appliance detailing the correct operation and maintenance of the equipment? For all other sectors: Are procedures in place to ensure proper management, supervision and training for process operations, proper use of equipment or proper management, supervision and training for process operations, proper use of equipment or on all plant and equipment concerned with the control of emissions to the air? (b) Specific responsibilities assigned to individual staff for these procedures? For dry cleaners: Are nominated trained members of staff exclusively permitted to operate the machines For small waste oil burners: Are nominated members of staff exclusively permitted to operate the appliance? For pertol stations: Are all staff with responsibility for operating the installation trained to be aware of their responsibilities under the permit? (c) Completion of individual responsibilities checked and recorded by the company? For dry cleaners: Are all operating staff trained in the operation of each dry cleaning machine and the control and use of dry cleaning solvents? For pertor stations, vehicle refinishers, gas odorisers and mobile plant: Does the operator maintain, and make available on request, a statement of training requirements for each operational post? For small waste oil burners: Are all nominated SWOB operating staff? For small waste oil burners: Are all one maintain an ecord of the training received by each person whose actions may have an impact on the environment? For pactor stations: Does the operator maintain a record of the training and instruction and make it available to the regulator on request? For gas odorisers and mobile plant: Are all staff with responsibilities un	Criterion		Possible Scores		cores	2
For dry cleaners: Are all operating staff aware of where the operating manual for each dry cleaning machine can be found and so they have ready access to it? For small waste oil burners: Are clear instructions available at all times on or near the appliance detailing the correct operation and maintenance of the equipment? For all other sectors: Are procedures in place to ensure proper management, supervision and training for process operations, proper use of equipment and effective preventative maintenance on all plant and equipment concerned with the control of emissions to the air? (b) Specific responsibilities assigned to individual staff for these procedures? For dry cleaners: Are nominated members of staff exclusively permitted to operate the machines For small waste oil burners: Are nominated members of staff exclusively permitted to operate the appliance?
